And while much of the literature on sorcery has been written in Arabic, there are only few translation works in English on the concept of sorcery, but not as detailed as the present work. Therefore, is ratison d'être of this translation is to enlighten the English reader of the concept of sorcery, its effects and the legitimate methods for its treatment. And since the methods of treatment consist of versee from the Qu'an and invocations which must only be recited in Arabic, I have provided transitierations for the non-Arabic speaking Enoish reader to use for treatment.

Though my translation -in fact any translation- will never reach the quality of the original, I hope that it will at least serve the purpose of exposing the evils of scroeny to the Muslim English reader. Should it contain any errors, then that should only be attributable to me and the Satian, and should it be free of errors, then that should only be attributable to Allah 4.8

 Arabs have given it the name silv because, it can transform good

Definition of Sihr

Sibr is an agreement set up between a sāḥir and a Satan, which stipulates that the sāḥir commit certain illegal or polytheistic acts, in return for the Satan's assistance and obedience in fulfilling the sahir's request

Some Means adopted by As-Saḥara in order to come close to Satan

Some saharu use the Gurfin as foothwest to go to the brief. Some with the must write some Gurfin overse with filling some write them using meases discharge. Some write them used relief feet feet. Some amagnammable writing in reverse the Generic Chapter (Abepter Admit of the Gurfin Some perform sadd without sector). Some remain as attect of inable some sectron animates to Satian, without initiating the slaughter with the words: in the Name of Alain, Most Merchul, the state of Inable some sectron animates of Satian, without properties and carcass at a location specified by the Satian Some of them speaks of patients and postimist to them, restead of protrasting to Alain. Some of them commit linest (with their mothers or daughters). Others, of them commit linest (with their mothers or daughters).

From this etandpoint, it is clear that al-*Jilinn* do not assist the *sālhir* without something in return, and the greater the *sālhir* sidsbelief is, the more obedient the Satan is to him and the faster in executing his orders. However, if the *sālhir* abstains from committing acts of disbellef, as instructed by Satan, the letter will stop executing the *sālhir* sorders.

The side and the Satin are, therefore, two accomplices in disclosiving falline. A look of the floor of side will confirm what. I have said about him: the discloses of full occore in the leves in a psychological misery with his wide and children and the leves in a psychological misery with his wide and children side with the side of the leves of the psychological misery with his wide and children and concennee. Chapter Two: Sihr in the Light of Qur'ān and Sunnah

Evidence of the Existence of Jinn and Demons

The relationship between Jinn and silhr is a strong one; for the Jinn and demons are the driving force behind silhr. Some people deny the existence of Jinn and, therefore, silhr. Below is a brief list of the evidence on the existence of Jinn and demons:

Evidence from the Qur'an

- 1 (And We turned to thee a company of Jinn giving ear to the Qur'ān.) (36:29)
- 2 (Company of Jinn and mankind, did not Messengers come to you from among you, relating to you My signs and warning you of the encounter of this your day?) (6:130)
- 3 (O tribe of Jinn and of men, if you are able to pass through the confines of heaven and earth, pass through them! You shall not pass through except with

an authority) (45:33)

- 4 (Say: 'It has been revealed to me that a company of the Jinn gave ear, then they said, "We have indeed heard a Quran wonderful..." 1 (62-1)
- 5 (But there are certain men of mankind who would take refuge with certain men of the *Jinn*, and they increased them in vileness.) (62:6)
- 6.(Satan only desires to precipitate enmity and hatred between you in regard to wine and arrow-shuffling, and to bar you from the remembrance of Allah, and from salāt. Will you then desist?) (5:91)
- 7.(O believers, follow not the steps of Satan; for whosoever follows the steps of Satan, assuredly he bids to indecency and dishonour il (24:21)

Evidence from the Qur'ân of the existence of Jihn and demons is numerous and known Suffice it to say that there is one whole chapter on the Jihn (Chapter 52), and that statistically, the words Jihn occurs twenty two times, Jihn another variant of Jihn occurs seven times, Salan occurs sixty eight times, and Salans (demons) occurs seventeen times

Evidence from the Sunna

ibn Mas'ūd ... narrated: "One night, we were in the company of the

Abu Sa'id al-Khudri & reported: "The Prophet plasaid to me, "I gather you like sheep and the wilderness. So whenever you are with your sheep or in the wilderness and you want to announce aza'n for salist, raise your voice when doing so, as whoever hears it, be they a human being, Jimor or any other creature, will be a witness for you on the Dav of Resurrection."?

Ibn 'Abbās & reported: "The Prophet # set out on a journey with the intention of going to Sūg 'Ukāz ('Ukāz Market), along with some of his companions. At the same time a harrier was established

They replied, 'A barrier has been placed between us and the news from heaven, and fire has been thrown at us." They said, "The thing which has been put up as a barrier between you and the news from heaven must be something which has happened recently. Go eastward and westward and see what has put a barrier between you and the news from heaven." Those who went towards Tuhāma came across the Prophet ik at a place called Nakhla, on the way to Sug 'Ukaz, where the Prophet was performing the Dawn Prayer (salāt al-Fajr) with his companions. When a group of Jinn heard the Qur'an being recited, they listened to it and said, 'By Allah, this is the thing which has put a barrier between us and the news from heaven. They went back to their own kind and said, 'O our people; verily we have heard a wonderful recital (Qur'an) which shows the true path; we believed in it and would not ascribe partners to our Lord 'Subsequently, Allah ## revealed the following verses to his Prophet %: (Say: It has been revealed to me that a group of Jinn heard (62:1) In fact, what was revealed to him was the words of the Jinn. 1

'Ähsha reported: "The prophet si said, 'Angels were created out of light, Jim were created from fire and Ādam was created out of what has been described to you."2

Şaffiyya bintu Huyay narrated: "The Prophet & said, 'Satan circulates in the body of mankind like blood "3

Abū Hurayra 4e reported: "The Prophet said, 'Any newborn at the time of delivery is kicked by Satan, and cries as a result, except the son of Manam (Jesus) and his mother." 2

'Abdullah ibn Mas'0d & reported: "Asked on his opinion of a man who has slept through the night till morning (after sunrise and missed salki al-Fair), the Prophet & sald, 'That is a man on whose ears (or ear) Salan has uinated "I".

Abu Sa'id al-Khudrî & reported: "The Prophet & said, When you

yawn, put your hand on your mouth to stop Satan from entering "1

With the foregoing in mind, it appears that there is no doubt that the Jinn and Satans exist, and only an obstinate person who follows his desires without any guidance from Allah, would dispute such reality 2

Evidence on the Existence of Sihr

Ibn Kathir stated that according to scholars of exegesis, Mujähid,
"Ikrima, al-Ḥasan, Qatāda and Dhahāk, (from the evil of the
women who blow on knots) refers to sawāhir (female sorregers) 2

Ibn Jarir Al-tabari stated that according to Al-Qasimly and scholars of exagesis, c. from the evil of the women who blow on knots) refers to the female scrozers who blow on threaded knots during their spell 3

Rebuttal of Views which reject the above tradition

According to al-Mazarf, a-Madatarfür have rejected the above hadith on the grounds that it would undermine the status of Prophethood and cast doubs over its authenticity. Furthermore, accepting such hadith would weaken the credibility of the Islamic Law. They also argued that when the Prophet is add the angel Gabriel had come to him, he had only irragined him, and that he had only irragined him.

According to af-Mäzarī, this is completely untrue, because the proof of the Message, which is the miracle of receiving Divine Inspiration, is indicative of the Prophet's truthfuness and his infallible charges in indicative of the Prophet's truthfuness and his infallible charges in conveying the Message. Therefore, believing in something that has been invalidated by evidence is wronn 1.

According to Abū Al-Jankī Al-Yūsufi, the Prophet's # Illness, resulting from the effect of skir done to him did not affect the status of his Prophethod This is because illness without any deleterious effect in this life befell Messengers at large, and would even increase their

status in the next life. Therefore, the fact that the Prophet \$\tilde{x}\$ immigrated, as a result of the illness caused by abir, that he had done something of life's daily routine activities which he had not really done; and the fact that he completely recovered from such illness through the support of Aliah \$\tilde{x}\$ Win neverside the safe where the sift was burned, means that the Message would not be affected by this at all, as it was a normal illness, like any other illness, and all, as it was a normal illness, like any other illness.

In fact, the act of sit of life in a first his reasoning, but only his perception. So, the Prophet it imagined doing things, such as touching one of his wives, which he had not really done; and in terms of illnesses, such acts of imagination are not harmful to a person's health.

Surprisingly, there are some who believe that the illness which befell the Prophet si as a result of sign degraded his Message; and they liken it to the explicit story of Moses as with the Pharan's scorers in the Quifán, when Moses set imagined, under the influence of sign; that the scorers's ropes and staff were stiding. So, Allah se encouraged Moses set to be firm, and not to fear anything, as the verse indicates:

(We said unto him, 'Fear not'; surely thou art the uppermost. Cast down what is in thy right hand, and it shall swallow what they have fashioned only the guile of a sorcerer, and the sorcerer prospers not, wherever he ones' b' (20:68-70).

No scholar has ever said that Moses' sai imagination of the sorcerars' staff were sliding under the effect of sift degraded his Message in fact, experiences such as those strengthened people's faith in the ability of Allah's \$4' Messengers This is because, Allah assisted them in defeating their enemies and in performing wonderful miracles, and letting down the sorcerers and the disbellevers, as indicated in the Qur'an 1

Abū Hurayra 🎄 reported: "The Prophet 🕸 said, 'Avoid the seven serious sins (As-sa' Al-Mubigát)" People asked, 'What are they?' The Prophet is replied, 'Shirk (polyheiam), sit/ (socrery), unlawful killing of a person, living on money from usury, usurping an orphan's wealth, retreat at the time of Jihād, and accusing innocent married women of fornication." 2

On the basis of the above hadith, the Prophet is warned that silhr must be avoided as it is one of the most serious sins, and this is proof enough that it exists

Ibn 'Abbās & reported: 'The Prophet # said, 'A person who has acquired knowledge of one of the sciences of Astrology, has acquired knowledge of one of the branches of slot, and the more his knowledge of Astrology is enriched, the more expansive his knowledge of Astrology is enriched, the more expansive his knowledge of Astrology is enriched, the more expansive his knowledge of slot the comes "S

In this hadith the Prophet \hat{x} refers to one of the means of learning s(y; s) to that Muslims may shun it; and this is an evidence that $s_i(y)$ is a real science that can be learnt. Further evidence can also be seen in the following verse:

(From them they learned how they might divide a man and his wife 1 (2:102)

Navavi:2/83) 3 Abū Dāwūd (No 3905). Ibn Māija (No 3726)

It is clear from the above verse and hadith that sihr is a science like other sciences, having its own fundamentals. Nevertheless, both the verse and the hadith condemn learning of sihr.

Imrân în Huşayn & reported: "The Prophet & said, "He is not one of us who practices statistic (comhousness) or has it done for him; who practices statistim (claimoyane) or has it done for him; who practices sith or has it done for him. And whosever has sought the services of a claimoyant and believed in what he has come up with, has in fact disbelieved in the Massage sent to Mushammad & "1

Evidence from the above hadith on silpr lies in the Prophet's warning against practicing silpror seeking it from a silprir. This shows that the Prophet would only warn against something that really existed

Abū Mūsā Al-Ash arī 🛦 reported: "The Prophet 🕸 said, 'He who drinks alcohol regularly, believes that the power of sibr to harm an individual is independent of Allah's 8t intervention, or severs relations with one's kin will not enter Paradise " 2

The evidence on silv from the above hadith lies in the Prophet's warning against believing in the power of sint to affect an individual independently of Allah's & I. Ablever should believe that silv or similar practices do not harm anybody or anything except with Allah's & Leave, as the following verse suggests: (yet they did not hurt any man thereby, save by the jeave of Allah) 2-(1) as were by the jeave of Allah of Carlos.

Views of Scholars on Sihr

According to Al-Khultáki, some poople denied the existence of sign. But sign is a reality upon which Araba, Pernians, Inclinas and spreas, and these are the best and most learned among anations. According to An-Nawawi, sihr exists. This phenomenon is a fact confirmed by most scholars and supported by the Qur'an and the hadith 2.

According to Ibn Qudāma, silvr exists, and it consists of types which may kill, sicken, take away a woman from her husband by making him unable to have sexual intercourse with her, and separate a man from his wife.

the Oudstan added that it is common knowledge that on the wedding right, a man may find out that sight has been done to him, after being unable to have sexual intercourse with his new wife. But once the sight is neutralised, he feels able to have sexual intercourse with his wife. The practice of sight has been harved down from generation to generation and cannot be disputed. Furthermore, reports on the activities of sporters cannot be unterest cannot be unterest.

tin Quáma also stated in his a/46ff that sib/ is a set of enchantments, spelis, knots which affect the heart and the body, and; thus, it could sicken, kill or separate a man from his wife, as the verse suggests. ibn Al-Qayyim stated in Badis?" Al-Faw® in that silpr exists and has an effect, on the basis of the verse (. Say, I seek refuge with the Lord. from the evil of the women who blow on knots) and on the basis of the hadith on the silpr done to the Prophet & by Labid ibn Al-Ksam.

According to Abū Al-Yaz Al-hnafly, scholars have disagreed on the reality of sithy and its types. However, most of them are of the opinion that sithy may result in the death or illness of the targeted person, without any apparent cause. 1

Categories of sihr according to Ar-Rāzī²

There are eight categories:

Category One

The si/hr of the Chaldeans who used to worship the seven planets, believing that these planets controlled the world and were behind the forces of good and evil. These people were the ones to whom the Messanger Ibrahim will was sent.

Category Two

The sith of people who have fantasies and hallucinations Ar-Rāzī argued how fantasy may have an effect on people. For instance, a man may be able to walk on the trunk of tree on the ground surface, but cannot do so if the trunk is placed alongside a river or a similar olace.

The common advice of doctors to a person with a nosebleed not to look at red objects and to a possessed person not to look at bright or revolving objects is simply because, man's soul has been created weak and is submissive to fantasies.

H1-RU(). (2/244)

Category Three

Seeking the assistance of worldly spirits (the Jinn) who are two types; bellevers, and the disbelievers who are demons

Professionals and experts in this field hold that communicating with these wordly sprifts is achieved by simple means such as *rupya* (reading over people or objects) using words of disbellef and polytheism, and smoke This type of sith is known as *al-'aza'lim*, which is, putting a spell on somebody, or the *sith of laskith*, which is, using the assistance of *limin* in performing acts of sith.

Category Four

This type includes the performance of mapic and eye-catching inclinedy. It is based on tricking the eye and prococcyping rick with the object viewed. A skilled mapician can profrom a trick that stars the minist of he wevers and catches their eyes, leaving the precoccupied with gazing at an object, thereby immediately performing another tick, within appears the more than the without are expecting, and are; thus, left durifutured if the mapician remains stater, does not say things within distract the minist of viewers, they would be aware of all the tricks he had intended to evertime.

Category Five

Marvellous objects such as a geometrically-made artwork. For example, a knight riding on a horseback, holding a horn in his hand, appearing to blow every hour. This type, including the construction of a clock mechanism, should not be considered as part of silv.

because it is based on positive causes, and if man understands science better, he will be able to produce more advanced machines. These things have become known now following the advance of technology which has been the driving force behind the invention of a number of marvellous objects.

Category Six

The use of specific medication in food and ointments Bear in mind that there is no gainsaying the effect of such medication, as the effect of hypnotism is clear.

Category Seven

The stable claims that he knows the supreme name of God and that he Jimorbely is commands in many things. If the person listener to the stable's week-initided, and less perceptive, then he would believe that what the stable's may tell him is he truth. Thus, a listener is attached to what he believes is the truth, and so could be easily frightened. Once fear is institled, his searcey proception is weakened, and the stable's would be capable of doing whatever he wishes.

Category Eight

Standering¹ people is one of the softer forms of sibr, which is common among people ²

¹ Tafsā Ar-Rāzī :2/231

² Tafs # Ibn Kath#: 1/147

According to Ibn Kathīr, Ar-Rāzī included several forms of this type in siļv as it is easily noticed, as siļv is in reality something subtle, with a hidden cause 1

Types of sihr according to Ar-Rāghib

Sihr has several meanings among which are:

S/br mens something light and subtle. To perform silv on a small official ment to thick him and catch his statention. One is statention. This meaning includes with process belief as eye-catching silv because. I consider his very statention. The meaning includes with process belief as eye-catching silv because. I come process the two rever's attention. For example, when doctors may say, being of an eye-catching nature? A second example, of this silv is expressed in the following verser: (But, we are a people affected by silv (i.e. mayabi-obj.), meaning, we are drawn away in knowledge? A third example of this silv is expressed in the phrase: "Some nature is say."

Sith may also refer to magical tricks such as those performed by a magician to distract the viewer's attention from his actual work, through the quick and subtle movement of his hands

Sith refers to the work done by a satisful using the assistance of demons, with the intention of getting close to them. This meaning is referred to in the verse: (but the Satans disbelleved, teaching the people sorcery, § 1/2:102)

Silty refers to the work of the sorcerers' communication with the planets and bringing down their spirits, as they claim!

Examination and Explanation of Categories of Sihr

The categorisation of sith by Ar-Rāzī, Ar-Rāghib and other scholars appears to include some types which are not reality part of sith; because it is bead on the literal meaning of sith, a suble act with a hidden cause. Hence, they have included such things as manvellous inventions, acts performed by the fast movement of hands, standarion and other smillar acts in their definition of sith.

These categories will be excluded from this study, as the main focus is on the real site in which a safety refles on Jim and Satans

There is also another issue which must be clarified concerning the spirits of planets mentioned which read and re-right The truth we over to Allah & is that planets are among His creatures, and their movements are regulated by His Command. Therefore, they do not have any free-will or spirits, and they do not have any free-will or spirits, and they do not have any free-will or spirits.

One might argue that one has seen sorcerers utter names which they claim they are the names of planets, or use coded language to

¹ Quoted from Fath Al-Bārl 10/222 (Ar-Rāghib Al-Aṣfahānī, Al-Mufradāt, →€) (sa/hīrā)}

communicate with these planets, and that s\$P takes place before the wave. But the first is that the occurrence of shor or its achievement is not due to the influence of the planets, but from that of the demonst have magnitude and tempted the excourses. It has been said that when disbelieves used to communicate with their stone isold that when disbelieves used to communicate with their stone isold, and they would believe that their goods (dods) replied to them, and though this is not the case. The ways of misgliations are numerous and namified, so may Alah protect us from the avii of the demons of marketing and July?

Chapter Four: How Does a Sāḥir Bring About a Jinn?

- Al-Iqsām (the sāḥir's swearing by the chief of demons)
- 2. Slaughtering
- 3. As-Sufliyya
- An-Najāsa (writing verses of the Qur'ān with filth)
- At-Tankīs (anagrammatising the words of the Qur'ān (writing them backwards)
- At-Tanjīm (the sāḥir's communication with a certain star)
- 7.Al-Kaffu (drawing a square around the left hand of a young child)
- 8.Al-Athar (traces of the smell of sweating in garments)

Agreement Between a Sāhir and a Demon

The sâhir should send the demon on an evil mission, but if the demon disobeys his orders, he would come close to the cheef of the tribe through some enchantements which would carry words of praise, seeking refuge in him instead of Allah & In return, the chief would punish the demon and command him to obey the sâhir's orders, or instruct commone else to obey the opthesities Sâhir's

Therefore, the relationship between the salet and the moutated. One is based on harder Usually, the .ulm would harm the salet for wife, children, or wealth, or even the salet himself, atthough the salet would not be water of the cause of his saleting; such as common pain, incomma and the sudden highthal water-guy during the right Terthermore, the solder socraries usually become limited, because forthermore and the sudden sould be the various before it is formed that the sould be the various before it is formed that is no common among the sold the various before it is formed that is no common among the professional more than the very angiven to the resolution.

One day, I was treating a woman affected by sihr, when I started reciting the Qur'an, the Jinn who had possessed her, spoke through

her, saving: 'I cannot come out of her '

I said, "Why "

He replied. 'I am afraid the sāhir might kill me.'

I said, 'Get out of this place and go somewhere else, where the sallivings about.'

He replied, 'He will send someone else after me to bring me back to him.'

I said, "Why don't you embrace Islam, sincerely declaring your repentance? We will, by Allah's Leave, teach you some verses of the Qur'an to protect you from the evil of the disbelievers among the floor."

The $\textit{Jinn}\,\text{said},$ 'Not. I will not embrace Islam, I will remain Christian'

I said, 'There is no compulsion in Islam, but it is important that you leave this woman'

He replied, "I will not leave."

I said, 'then I will, by Allah's Leave, expel you'. Let me recite some verses of the Qur'an until you are burnt?

Then, I hit him hardly and he cried, saying, 'I will get out, I will get out' Finally, he abandoned the woman

Usually, the greater the *skihir's* degree of *kuhi* is, the more obedient the demon would be to him, and faster in executing his orders However, once the *skihi* should abstain from committing acts of *kuhi*, as instructed by the demon, the latter would stop executing the *skihir's* orders.

How Does a Sāḥir Bring About a Jinn?

There are various ways of bringing about a Jinn, all of which require the use of a language in a polytheistic or atheistic way. I will discuss eight methods below, indicating briefly the type of polytheism or dishelief used in each method. I am citing these methods because some Muslims do not distinguish between the treatment of sihr with the Our'an, and the treatment of sihr with sihr. The former is 'imani (based on Faith), while the latter is satanic. Generally, ordinary people tend to believe that when a sahir, for example, utters atheistic words of sihr, and strongly maintains what he says, by mixing it with some verses from the Qur'an; that the sufferer is actually being treated with the Qur'an. But this is not the case. If the sufferer believes that he is being treated with the Qur'an, he would usually submit himself to the sāhir, who would then be free to do whatever he wishes with him. Therefore, the purpose of these methods is to warn my Muslim brothers and sisters of the ways of evil, misquidance, and also to expose the ways of these corrupters.

The First Method: Al-Igsām

Swearing by and Seeking Refuge in the Master of Devils

The sāḥir may enter a dark room, light a fire and smoke incense of a good or bad odour, according to the subject of the request. If, for

instance, the sight intends to separate or stir up hatred and enmity between pools, he would put abed-entelling incense onto the fire May if he wants to bring love between pools or neutraline the sit of an imposent person or a sit in general, he would not necessarily income come between Persons or a sit in general, he would a necessariling to control the Persons of the May work, he may got it reading this logger control to the Arm from Persons or the fire Affective May or the sit of the sit

After reading the incartations, a phantom appears before him in the form of a dog, a snake, etc. , then the stifty revoid command it to do whatever he wishes. Sometimes nothing appears before the stifty, at others the stifty may hear a voice or nothing at all. In this case, he may put a knot around the trace of the tagreded person such as a lock of his hair, a sweaty piece of his garment ... etc, and then he would instruct the Juritor to bely withstery he should command.

Comments on this method

This method shows that:

- 1 The Jinn prefer dark rooms
- 2 The Jinn are fed on incense, upon which the Name of Allah is not pronounced
- 3 The apparent and explicit act of polytheism in this method lies in swearing by and seeking refuge in the Jinn.
- 4 The Jinn prefer fith, thus devils approach impure things

The Second Method: Slaughtering

The sight brings a bird (a chicken or a pigeod) or an animal with certain specifications, according to the durin request. Usually, the animal is black, a deep profer black things. Afterwards, he stagglites that without initiating the stagglites that without hostilizing the stagglites which is blood and contains a most of the stagglites of the stagglites which is blood and contained as well, or in a deserted pilice, which are usually the homes of Ann. Which certains in a discontinuation of Allei the them creating the containing the stagglites of Allei the them creating homes, recites his incartation and commands the Jilon to do what he

Comments on this method

Two acts of polytheism may be summarised in this method:

1. Presenting a scartifice (staughtering) to Julin is forbidden, abcrowing to predicessors and successors among scholars because, it is a sortifice that is not presented to Alahi. Therefore, a Muslim person music next from such assertized, let allowed a proper sortific the scartific and process. It is proporat commit such acts at all times and pulsors. Yaring this report of the scartific and pulsors are sortific to the scartific and pulsors. You have been such as a series of support the series of the scartific and pulsors are sortificated an animal for the User and invited people to scartific and the scartific and scartific and pulsors absolute the propole also seasons are suitable of the scartific and the scartific and

It is reported in sahih Muslim that 'Ali Ibn Abi Tālib said, 'the Prophet

8 said, 'Allah % curses he who slaughters a sacrifice to other than Allah '1

 The incantation which a să/hir uses in order to bring about the Jihn contains a language of explicit polytheism, as Ibn Taymiyya pointed out in more than one instance in his works.

The Third Method: As-Suflivya

Extreme Sense of Disbelief and Paganism

This is a well-known method among the sorcerers who adopt it its practitioner has a large group of demons working for him, obeying his commands because, compared to other sorcerers, his disbefiel and paganism are the most extreme May Allah's curse be upon them.

This method may be summarised as follows:

The saftir wears the Qur'an on his feet like a pair of shoes and goes into the toilet to recitle his incantations. He then leaves the toilet and goes into a room to order the *Jilina* to do whatever he dictates. In response, the *Jilina* to execute his orders to his strong disbellef in Allah 3 and his becoming satanic.

¹ Akām Al-Marjān : (78)

In order to be classed as a *suffi*; a *sāfii*r is required to have committed serious sins, other than what was mentioned, such as incest, homosexuality, committing illegal sexual intercourse with a stranger, or fidiculing religion, in order to please Satan

The Fourth Method: An-Najās

Writing Chapters of the Qur'an with Filth

The sāḥi/ writes a verse of the Qur'ān with menses discharge or other filthy fluids, then recites his polytheistic incantations. As a result, a i/m appears, then the sāḥi/ orders him to obey his orders

There is no gainsaying the explicit disbellef in this method because, ridiculing a chapter or even a verse of the Qur'an is a form of disbellef, let alone, writing it with fiith

The Fifth Method: At-Tankīs

Anagrammatising Words of the Qur'an

The sāḥir, may Allah's curse be upon him, rewrites the words of one of the chapters of the Qur'ān backwards, while reciting his

incantations Then, the Jinn appears and the sāhir orders him to do what he wants

This is obviously a forbidden method, as it contains acts of polytheism and disbelief

The Sixth Method: At-Taniim

Communicating with a Certain Star

This method is also known as Ar-rasd (from tarassada to observe) The sāhir waits and observes the sky until a specific star emerges, then talks to it using enchanting language and another incantation that contains words of polytheism and disbelief, which only Allah # knows of He then performs some movements which he claims make the spirit of that star descend. But this is in fact an act of worshipping that star instead of worshipping Allah. The sāhir may not be aware of his action, but this is an act of worshipping and extolling other than Allah. As a result of this worship, the demons execute the sāhir's orders. However, the sāhir believes it is the star which helps him, yet the star, which is falsely accused, is not even aware of what is happening. The sorcerers claim that this type of sihr cannot be resolved unless the star reappears. There are stars which appear only once a year, so they wait and observe until it reappears, recite an incantation, in which they seek refuge in that star to resolve their s/br

The act of disbelief lies in praising and seeking refuge in other than

Allah, not to mention the incantation which contains words of

The Seventh Method: Al-Kaffu

Drawing a square around the left hand of a young child

The sāḥr brings a young child, who has not yet reached puberty, provided that the boy is not in a state of wudū', then takes his left hand and draws a square around it

The eight wirdle scantaions, containing words of polytheleim, around the four corners of the square. Afterwards, he puss of and the torace, or oll and blue inkl, in the hand of the child which is in the square. He then writes other incantainors in single words or encarpular price of paper. Then, he puts the piece of paper then face of the child is as shader occurs, putting a cap no so that the read the child is as shader occurs, putting a cap no so that the read the child is as shader occurs, putting a cap no so that the read that the child is the shade of the child completely with a thick grammer. At this time, the child loots at his hand, but words we have shaded in containing the child read to the child read in containing which contains words of extreme disbelled. As a result, the child feels as if the durinoses has turned into light, and sees the morking shade in his hand.

'What do you see?" the sāhir asks the child

The child answers, "I see the picture of a man."

The sāhir says, "Tell him the sāhir says so and so," Then the image starts moving according to his orders

This method is mostly used in looking for lost things

Again, there is no gainsaying the acts of polytheism and disbellef, and all the strange incantations involved in this method

The Eighth Method: Al-Athar

Traces of the smell of sweat in garments

The sight asks the patient to bring a garment that has traces of the need of hubbre sweat, such as a handscrobled, Innan, or shirt Suppose the garment is a handscrobled. He would knot the flame share the handscroble is a handscrobled. He would knot the handscroble, so that it measures the thickness of cur fingners. He then holds it firmly and roctes At-Talkithur Chapter (Quirfan:102) or any other short chapter of the Curfa, in a load voice, then he recibles an incarnistion slendly and calls the Jimz, saying: "If this patients likes has been caused by a Jimz, then shorten this garment if the filters has been caused by a Jimz, then shorten this garment if the patients are seen caused by the value, then shorten this garment if the patients are the second naturally, then issued he largely in the patients as it is." The called naturally, then issued he largely necessary to the garment "You suffer from the effect of a jaskbus eye" if it is less, has syst to the patient. "You suffer from the effect of Jimz," the size of the garment is still four fingers, he says to the patient." You suffer from the effect of Jimz, the size of the garment is still four fingers, he says to the patient." You suffer from the effect of Jimz, the size of the garment is still four fingers.

Comments on this method

- 1 The sāḥir confuses the patient He recites verses of the Qurân, loudly, in order to make the patient believe that he is being treated with the Qurân This is not the case, for the secret lies in the incantation which he recites silently.
- 2 Seeking the assistance of Jinn, and appealing to them, is an act of polytheism
- 3 The ulimit tall many lass. Who knows whether this ulimit was bring the truth or was lying? The word forms excorates has been lessed, and it was prome that cometimes hay were belling the truth, ut most of an early that involve the truth was promised to an early that himiter that holder suffered from the suffered to the suffered from the suffered from

Distinctive Features of a Sāḥir's Work

If you find one of the following characteristics in a person who treats people suffering from sihr or other related illnesses, then this person is definitely a sihhi:

- 1 He asks the patient his and his mother's names
- He takes a sweaty garment from the patient (a piece of cloth, cap, handkerchief, or flannel etc.)
- 3 He sometimes asks for an animal, with certain specifications, in order to slaughter it without initiating the slaughter with the Name of Allah. He may use the sacrificial blood to stain some painful areas of the patient, or throw the carcass in on a rulned star.
- 4 He writes incantations.
- 5 He recites unclear incantations.
- 6 He gives the patient a hijāb (incantation written on a piece of paper), which contains squares within which letters or figures are written.
- 7 He instructs the patient to isolate himselftherself in a dark room and not to talk to people for a specific period of time. The common people call it withite (act of remaining indoors for a long time).
- 8 He sometimes instructs the patient not to touch water for a specific period of time, usually forty days. This indicates that this particular *Jinn*, working for the *sāhir*; is Christian
- 9 He gives the patient some items to bury in the ground
- 10 He gives the patient some pieces of paper to burn and use as an incense for his or her body

11 He murmurs unclear words

- 12 He sometimes informs the patient of his name, his town and the purpose of the visit
- 13 He writes broken letters on a piece of paper (hijāb) or on a plate made of white porcelain, and instructs the patient to dissolve the writing in water, and then drink it

If you discover that this man is a *sāḥir*, do not go to him; or else you are the person whom the Prophet & describes in the following hadth: "Whoever goes to a scothsayer and believes what he says, has disbelieved in the Message sont to Muhammad."

Chapter Five: Punishment Under Islamic Law for Practising Sihr

Punishment under Islamic Law for Practising Sihr

According to Imam Mālik, a person who practises sihr (sāḥir), but does not have it done for himself is similar to the person Allah describes in the following verse: (and they learned what hurt them, and did not profit them, knowing well that whose buys it shall have no share in the world to come) (2:102) According the verse, Imam Mälik believed that the Punishment for practising sith is the death sentence 1

According to libn Qudāma, the Punishment for practising sihr is the death sentence. This view was reported by 'Umar, 'Uthman Ibn 'Affān, Ibn 'Umar, Hafsa, Jundub Ibn 'Abdullah, Jundub Ibn Ka'b, Qays Ibn Sa'd, and 'Umar Ibn 'Abdul'aziz It is also the view of Abū Hanīfa and Mālik

According to al-Qurtubi, scholars of jurisprudence disagreed as to the punishment of a Muslim who practises sihr and a zimmi who practises silv. According to Mälik, the Punishment for a Muslim person who uses silv himself that contains words of disbelief is the death sentence. He must not be requested to repent, as his repentance would not be accepted. This is because his sity is something which he keeps secret, just like a disbeliever or an adulterer. This is also because Allah & defines sihr as disbelief: (they taught not any man, without they said, 'We are but a temptation; do not disbelieve ') (2:102) This is also the view of Ahmad Ibn Hanbal, Abū Thawr, Ishāq, Ash-shāfiīt2 and Abū Hanīfa 3 According to Ibn Al-Mundir, the punishment for a person who admits to the use of silv; containing words of disbellef is the death Punishment, if he does not repent, and also if the evidence against him shows that he has used words of disbelief. If he says that the si/hr he has used did not contain words of disbelief, then he shall not be sentenced to death. If the silv he used harmed a person so seriously as to deserve the death Punishment (under gasās law). then he must be sentenced to death, if he uses this silv with intent to harm. However, if the silv used does not merit the death penalty. then the penalty shall be blood money 1

Ibn Kathir arqued that according to the verse: (. yet had they believed and been Allah-fearing, a recompense from Allah had been better. If they had but known) (2:103), a sahir does not commit such an act of disbelief when he uses silts; a view which was held by Imam Ahmad ibn Hanbal and a group of predecessors However, the punishment for committing such act is the death penalty, according to a previous case reported by Ash-Shāfi'i and Ahmad: "Sufvān Ibn 'Uyayna quoted 'Amrū Ibn Dinār, 'I heard Bajāla Ibn 'Abda sav. "Umar Ibn Al-Khattāb Instructed in writing to kill every sāhir and sāhira so we killed throo "

According to Ibn Kathir, this hadith is transmitted by Al-Bukhārī in his sahih 2 Ibn Kathir stated: "The death penalty has another antecedent in the story of Hafsa, Umm Al-Mu'minlin One of her female servants performed silv to her, so she ordered that the servant be killed, and the killing was carried out.

1 Quoted from Tafsir Al-Quetub (2/48)

¹ Al-Muwatta (628)

² Ash-shāfi'i held that a sāḥir should not be sentenced to death for simply practicing sihr, but rather, he should be killed, under al-gasās Law, if he has used a sihr which has claimed a life (quoted by lbn Al-Mudir and others)

³ Tafsir Al-Qurtubi (2/48)

² Fath Al-Bari 6/257

According to Imam Ahmad, three companions of the Prophet & confirmed that the punishment for a sāḥir is the death penalty 1

Al-Häfz Ibn Hajar reported that according to Imäm Mälik, the punishment for practising sithr is similar to that applicable to a zezindir (a person who does not believe in the Hereafter or who openly declares his faith, but conceals his kuth). His repertance should not be accepted, and he must be killed if it is confirmed that he is really a swith. This is also the view of Imäm Ahmad

According to Ash-Shāffī, a sāḥir should be killed unless the siḥr he has used had actually killed a person, in which case his killing must be counted as qisās 2

Summary

According to the aforementioned views, it appears that the majority of scholars are of the opinion that a sabir should be killed, with the exception of Asi-Shaff'i, who said that a sabir should not be killed unless his sily has killed a person, in which case his killing should be counted as rich as the sabir should be sabir shoul

Ibn Qudāma reported: "According to Abū hanifa, a zimmī who practises siţir should be killed, on the basis of a commonly held view and that, since the death penalty is applicable to a Muslim sāṭhir, then it should also be applicable to a zimmī sāṭhir."1

A-Höffe für bişipir reportes: "According to Infam Milki, a zimmi skille a zimmi skille a zimmi skille a simon skille a zimmi skille rina caused harm to a Milkille piran, ora skille a zimmi skille rina caused harm to a Milkille piran skille a zimmi skille rina skille a zimmi s

According to Ash-Shaāfi'ī, a zimmi sāḥir should not be killed, unless his silv has killed someone 3

Ibn Qudäma said: "A zimmi saţhir should not be killed unless his sţhr has killed someone. Mostly, it is a sţhr that kills, in which case, the death penalty should be applied for as ţisţisk. When it was confirmed that Labid Ibn Al-A'şam had used sthr against the Prophet ils, the Prophet ils did not order his killing because, his practice of polytheism was more serious than his sthr."

the Oudsime added. "The views quoted were based on the enabley drawn between a falsulin skiple and a primit skiple. The difference is that a Mastern safe's is classed as discletiever when he uses sight. A point sight is enabled or discletiever with the buses sight is plant sight is already a discletiever. Therefore, the analogy on which scholars based their judgment is invalid on the based of the difference between peace based as discletiever by one should be a discletier by discletiever by one of the discletier by the discletie

Is the Treatment of Sihr with Sihr Lawful?

ibn Qudāma stated: "If sihr is treated with the recitation of some of verses of the Qur'an or some invocations, then there is nothing wrong with it. As for the treatment of sihr with sihr, Imām Ahmad

never went beyond this issue "2

1 Al-Mushnī : 10/115

2 Al-Muchni: 10/114

Al-Háfiz Ibn Hajar reported: "According to the Prophet's & hadith, 'Annushra's is a work of Satan," annushra's is a reference to the purpose for which it is sought. For instance, if it is intended for something good, then it is good, but if it is intended for something bad, then it is bad. However, annushra may be two types2, and this is, according to Al-Háfiz Ibn Halar, is the correct view.

- Lawful Nushra: Treating silv with the Qur'an or permissible invocations
- 2 Unlawful Mashru Treating shr with sight which entails seeking the assistance of demons. Beriferanding, or seeking retigue, for seeking retigue, in them or pleasing them. Perhaps this is the type intended in the hadful Abra-out-Not is a work of Statin. Where to the point how can this type of nushra be lawful, while the Prophet is warmed in more than one hadful that going to the safetar and sochasyers and belleving in what they say is disbelleving in what has been sent to Minhammer 46.

According to Ibn Al-Qayyim: "An-nushra is curing a person of sitir, and it is two types:

- 1. Treating sifty with sifty which is a work of Satan This is supported by Al-hasan Al-Başrī's view; that through it, both an-nāṣhir (the one who uses nushra) and al-muntashir (the one who has it done for him) befriend the demon by answering to his needs. In return, the demon invalidates the sifty.
- 2 Treating s/hr with rugya (words of seeking refuge in Allah from evil) and invocations) is permitted

Is Learning Sihr Lawful?

Al-Hāfiz Ibn Hajar reported: "The verse ('We (the Jinn) are but a temptation; do not disbelleve,') indicates that learning sith is an act of disheller."

Ibn Qudäma reported: 'That learning or teaching sith is an unlawful act is an uncontroversial issue among scholars as far as we know The Hanbalish hold that a person becomes an unbeliever if he learns to practise sith, whether he believes in sith as lawful or unlawful!'

According to Ar-Azia. "Researchers in the subject of sith agrees that touckept of sith in not harmful nor instantut, on the base that seasting touckept is an thorough pursuit in tead, and also on the basis of the operand meaning of the verse: (Sey." Are those to the touckept and those without knowledge qualt?") (39.9) Furthermore, if sive when not accessible to learn, it would be possible to distinguish if from a mirroulous work; and knowledge of under the possible to distinguish if from a mirroulous work; and knowledge of under the read of the processible to obligation." There accept the industry of sharing it is obligatory and what is obligatory concern he industed of sharingful."

According to Al-hāfidh Ibn Kathīr: "There are, however, arguments concerning Ar-rāzī's view First, if Ar-rāzzī meant that learning sibr is not shameful, logically, then there opponents of sibr among the Mutzazīfies deny such a view. However, if he meant that learning sibr is not shameful, logally (under Islamīc Law), then tearning how to

practice sight has been condemned in the following verse (, and they follow what the Satarn excited over Sulsyminh's Kingdom, Sulsyminh Globellow and the Satarn excited over Sulsyminh's Kingdom, Sulsyminh Society, and successful present in the following haddhis, "And whosever has sought the services of a clain/cyart or soothsyer, has in fact disbelieved in the Missage sent to Mishammad a", (Transmitted in Al-Bubthish), and "Whosever ties a knot and blovs into it, has committed an and of sith "Citarnsmitted in the Susago."

Second, how can it be that researchers on the subject of sity agree that knowledge of shift is not unlawfull whals the Outfan and the hadfill warm against its learning. Furthermore, agreement among researchers requires ordionize which proves that the leading scholars, or most of them, hold that it is not unlawful to dearn it. But where are their views? Moreover, including the learning of sity in the meaning of know in the verse.

(Say: "Are those with knowledge and those without knowledge equal?) (39:9)

is disputable, because this verse praises scholars who are learned in the disciplines of the Islamic religion

Also, the view that knowing the work of a mixed is dependable on learning shift seek and incorrect. This is beause, the most magnificant mixed is that happened to Muhammad a was the revealation of the Out-fin Therefore, knowledge of the Out-fin as a mixed does not necessarily depend on teaming shift. Another anyment is that if common that the comprehens of the Popular scholarly preferences, contingroups leading Muslim scholars and ordinary. Difference Between Sihr, Miracles and Charisma

According to Al-Mäzari, the difference between Silty, Miracle and Charisma is that silty is achieved through much efforts, by talking and doing things. Charisma does not require such an effort, and a miracle surpasses charisma in terms of challenge 1

According Al-Haliz Ibn Hajar, there is a consensus that alth only comes from a disrespectful person, and that a chairma does not appear on a disrespectful person. Al-Haliz Ibn Hajar also stated that one should be aware of the character of the person associated with the extraordinary. If, for instance, the person in question adheres to the principle of Shariz'a and sharine the serious sins, then the extraordinary acts he performs are classed as charisms; otherwise is an act of sith because it comes from one of its categories such as

in this chapter, I shall discuss some types of airn' in terms of their effect on a person and the restiment of each type with the office. Some and invocations of Alahi However, I would like to daw the marker's attention that in this and other chapters on treatment, there are some methods which are not confirmed by the Prophet in traditing some special cleases. They are, novertheless, included in traditing some special cleases. They are, novertheless, included in the property of the property of the Currier and Common For example, you will find that the cut of disease with a vesse of the Currier is included in the vesse."

(And We send down, of the Qur'an, that which is a healing and a mercy to the believers ...) (17:82)

Some scholars hold that the verse refers to healing of psychological diseases such as suspicion, polytheism, immorality, while and others are of the opinion that *healing* in this context is both mental and physical

Another evidence which is not only clearer, but is also a basic constituent, in this respect is the hadith quoted by "A"isha, when the Prophet & came home to find a woman treating her with rugye, and said: "Treat her with the Book of Allah (the Qur"ah)"

A close examination of this haddh reveals that the Prophet's as statement is general; not confined to any specific verses or chapter of the Qur'an. This proves that the entire Qur'an is a healing Furthermore, practical experience has shown time and again that the Qur'an is not only a healing to she, riseanily and jesticusy, but also to physical illiness.

One might argue that there should be specific evidence from every verse we choose from the Qur'an for the purpose of healing a

patient. One might also argue that one should wait until confirmation comes from a hadith that the Prophet is healed such an illness with such a verse. In response to this argument, we say that the Prophet & laid down a general rule for every rugya It is reported in Sahih Muslim that some people asked the Prophet &: 'O Allah's Messenger! We used to do rugya during the Pre-Islamic period of ignorance." The Prophet & said, 'Tell me about your rugyas. For there is no harm in a ruque as long as it does not contain words of polytheism '1

According to this hadith, we are allowed to adopt rugys from the Qur'an, Sunna, invocations of Allah or the like; or even rugyas which belonged to the pre-Islamic period, provided they do not contain a language of polytheism.

Jabir & reported that the prophet & said: "/biis would lay his throne on water and would send his brigade of demons. The lowest among them in rank is the one who is most notorious in stirring up fitna One of the demons would, after a mission, come and say to Iblis, "I have done so and so." Iblis would reply, "You have not done anything. Another one would come and say: I have not left such and such person until I separated him from his wife' Iblis would come closer to his demon and say, 'How good you are "1

Definition of Sihr of Separation

It is a s/hr which aims to separate between two spouses, or stir up hatred between two friends or two partners

Types of Sihr of Separation

- 1 Separating a person from his/her mother
- 2 Separating a person from his/her father
- 3 Separating a person from his/her brother
- 4 Separating a person from his/her friend 5 Separating a person from his/her business partner
- 6 Separating a person from his/her spouse. This is the most dangerous and prevalent type

¹ Muslim in An-Newsoni - 17057

Symptoms of Sihr of Separation

- 1 A sudden change in attitude from love to hate
- 2 A great deal of suspicion is aroused between the two people concerned.
- 3 No excuses are accepted by either party, even if one of them is in the wrong
- 4 Exagerating the causes of disputes between two people, even though they may be trivial
- 5 Changing the mental image that a woman may have of her husband or changing the mental image that an imay have of his wife, so that has a substantial image that an imay have of his wife, so that his wife in an uply way, even though side in a made, it is the deem who is wife in the task of performing this type of after is the one with round appear to the husband in her person, but in an uply by the same token, the woman would see her husband in a horrible year.
- 6 The person affected by silly hates anything the other party does
- 7 The person affected by si/hr hates the place in which the other party stays. For instance, a husband may be in good mood when he is outdoors, but when he returns home, he feels quiete

According to Al-Häflich Ibn Kathir, the cause of separation between two spouses through this *silly* is that each of them appears to the other as an unity or ill-mannered person ¹

How does the siḥr of separation take place?

A person grees to a socreter and requests that a contain person to expended from the wiff. The scream venue das the distint to provide the name of the person and that of this mother, and fraces of the person's small from higher that, gramer or handworkerly etc. If this is to difficult to obtain, the socreter would perform sylvn one water, then as the isolated to obtain, the socreter would perform sylvn one water, then as the isolated to perform the year of the person contains the person of water, then to their normally used. Treatment

There are three stages of treatment:

First Stage: Pre-treatment Stage

Providing a setting of true faith, by removing pictures from the place of treatment so that angels may enter it

Taking any talisman from the patient and burning it

There should be no music in the place of treatment

The place of treatment should be devoid of any unlawful act, such as men wearing gold, women without hijāb, or anyone smoking.

depressed

Diagnosing the case by asking the patient some questions to check for the existence of symptoms, or most of them:

Do you sometimes see your wife in an ugly way?
 Do you dispute over trivialities?

3 Do you feel relaxed outdoors, and very depressed at home?

4 Does anyone of you feel uncomfortable during sexual intercourse?

5 Does anyone of you feel nervous during sleep or have nightmares?

Continue asking questions, and if the patient has two or more symptoms, resume your treatment

1 Do wudhū' before starting treatment ask people who are with you to do the same

2 if the patient is a female, do not start treatment until she covers her hair and body, and fastens her garments well so that her body is not revealed during the process of treatment
3.Do not treat a woman whose face is uncovered who is wearing

perfume or has anicured nails
4 Do not treat a woman unless one of her mahānim (unlawful

4 Do not treat a woman unless one of her maḥānm (unlawt persons to marry) is present

5 Do not allow anybody to be present apart from her maharim.

6 Recite: lä ḥawla wa lā quwwata illā billāhi and 'īnu billāhi jali wa 'alā Second Stage: Treatment

After this rugya, the patient will be in either of the following three conditions:

The First Condition: If the patient should have an epileptic seisure, and the Jimr that has been charged with the task of sizer should speak through the patient, then deal with this Jimr in exactly the same way as you would treat cases of alphanan (insanity). However, you should ask the Jimr several questions among which are:

What is your name? What is your religion? If he is not a Muslim,

invite him to Islam. But if he is, then explain to him that his working for the sāhir is against Islam and unlawful

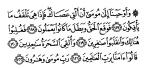

Ask him the location where the sight is hidden or buried. But do not believe him until it has been proven that he is telling the bruth. If for example, he informs you that the shirts in a certain place, then and someone to find it. If it is found then he is telling the truth Remember, the John tell many lies.

Ask him whether or not he is the only one entrusted with the task of doing s/lx. If he has someone else working with him, then ask him to bring him to you, so that you can talk to him.

Sometimes the Jinn tells you: "A certain person (man) has gone to the screer and requested this silv be done in this case, the healer should not believe him, as he would want to sit up hostilify between people, and his testimony would, in any case, be rejected under Islamic Law, since he is disrespectful." His disrespectfuleness is evident, as he works for the soccerr. In this context, Alla his saws.

(O believers) If a disrespectful man comes to you with a tiding, make clear, lest you afflict a people unwittingly, and then repent of what you have done) (49:6)

If the Jinn should inform you of where the sihr is buried and you have disinterred it, then recite the following verses over some water:

(wa lawh aynā 118 mūsā lan ladự laseka fairtiā hiyya talutatu mā ya likūn, fawaqa al-haqqu wabatala mā kānū ya milati, na ghubid hundilika wan-qalatū sighirin wa ulqiyyas-saḥaratu sājūtina, qālū 'āmannā birabbil-' ālamin, rabbi mūsā wa hātūna) (1.117-122)

فَلَمَّا الْفُوْافَالَ مُوسَىٰ مَاجِشَتُم بِهِ السِّمِّ إِنَّالْقَ سَيْعِلْمُ إِنَّالَةَ لَا يُسْلِحُ عَلَ الْمُفْسِدِينَ ﴿ قَنَّ وَيُحِنَّ اللَّهُ الْحَقِّ بِكِمَنِيّهِ وَوَكَنِّ وَ الشَّجِرُ مِن اللَّهُ

('Wa alqima fi yaminika talqaf ma san'ū innamā ṣana' ū kaydu sāḥirin wa lā yuflihus-sāḥiru haythu 'tā') (20:69)

Take a pot of water and recite the above verses over the water, so that the air exhaled from your recitation reaches the water. Dissolve the *sith* into the water, be it paper, perfume or otherwise, then pour the water at a distant location if the *Jinn* says that the patient has drunk the *sith*, then ask the patient if he feels any pain in his stomach. If he does, then the *Jinn* is telling the truth.

If it is proven that the Jinn is telling the truth, try to convince him to get out of the patient and never come back, and rell him that you will invalidate such syft, by Allai's Leave Afterwards, read the above verses, and the verse (2-102) over the water, and ask the patient to drink from it and to wash himselfferself with it. for few days

If the Jinn says the patient has passed over the sith or it has been done to him through traces of his har or garments, then notife the above verses over water, and ask the patient to drink from it and wash himselfitherself with it, for few days, outside the bathroom, then pour it in a street for instance or in any place outside the washroom until the pain goes. Afterwards, take a coverant from the Jinn to leave and never fetur

Ask the patient to visit you after a week, and recite the rugya to him

again if he does not feel anything, then the sigh has been immidiated if he should have an epiletic secture again, the been furnished and the should have an epiletic secture again, then why he does not want to leave. Then this kindy if he does not wint to leave. Then this kindy if he does not, thit him and note the Qurint, me have an other forms of burnter. Reclet the same rugue to him/her, and he/she would by Allish Leave- have recovered by then But, if the patient is not cured, inpeat the same process by them. But, if the patient is not cured, inpeat the same process by them. Ad-dishard and Al-Jim/h and advising himfler to listen to it three times a day, for three weeks. He/she should, by Allish's Leave, encover if the does not, try to prolong the period of treatment (i.e. issering to the Cura'h).

The Second Condition: During the recitation of ruspy, the patient should find (120%), where or have a very bad headache, but would not absolute for discreption of the ruspy first times of the conditions of the ruspy first times on the ruspy first times of the ruspy first times of the ruspy first times for the ruspy first times for the ruspy first times for a first dispy, and neather will ruspy first times for a first dispy, and neather will ruspy first times for a first dispy, and ruspy first dispy first times for a first dispy first

1 Record the chapter as-saffat once and syst al-kursiy several times on an audiotape and ask the patient to listen to it three times a day.

2 Advise him to observe salāt in a group (salātul jamā'a)

3 Advise him to say the following supplication 100 times after salátul fair, for one month:

(lā'ilāha illāllah waḥdahu lā sharika lahu lahulmuk wa lahulhamd wa huwwa 'alā kulli shay'in gadīr\

Advise the patient him that the pain may increase during the first ten or fifteen days, but then would abste gradually. By the end of the month, the pain should have gone. Reclet the ruzpe again, and he should, by Allah's Leave, feel no pain, and the sith would have been neutralised. But, the pain may increase throughout the month, and the patient may feel a severe tolking in the relate. In this case, ask him/her to come back, and recite the ruava to him/her a few times If the patient, by Allah's Leave, becomes epileptic, use the same treatment as in the first condition.

The Third Condition: The patient may not feel anything during the recitation of rugva. In this case, ask him/her questions in order to determine some or most of the symptoms (these questions are discussed above) If you do not identify any symptoms, assume that this person is neither affected by sorcery nor ill. To ensure that there is nothing wrong with this person, you may recite the rugya three times If some symptoms exist, and if you repeat the rugys, and, then, he/she does not feel anything - and this is very rare - do the following

1 Record the chapters ad-dukhān and al-Jinn on an audiotace and advise the patient to listen to it, three times a day

2 Advise the patient to say (astaghfirullah) 100 times or more, everyday 3 Advise patient to say (lā hawla wa lā quwwata ilā billah) 100 times

All these steps should be observed for a month, after which time you should recite the rugva and follow the treatment as outlined for the above two conditions.

Third Stage: Post-treatment

or more, everyday,

If the patient recovers through your treatment and feels well, you should praise Allah & Who has made it possible. You should also feel that you are more in need of Allah's Support, so that He will

assist you in other cases. Do not let yourself be driven by your success in treating cases of sorcery into a state of arrogance and denial of Allah's Support. The following verse indicates that if one shows gratefulness to Allah 5 for a blessing, Allah 5 gives him more:

(And when your Lord proclaimed, 'if you are thankful , surely I will increase you, but if you are thankless My chastisement is surely terrible) (14:7)

Yet, the patient may still be exposed to a renewed silv: If those who do sihr learn that the patient has sought treatment, they may go to a sorcerer to perform another sihr. In order to avert being afflicted by sihr a second time, the patient should not inform anybody of his recovery. In any case, advise him/her:

- 1 To observe salāt in a group (salātul jamā's)
- 3 To make al-wudhū' and recite āyatul kursiy; before going to bed
- 2 Not to listen to songs or music 4 To say (bismillah) upon doing any task
- (lälläha illällah wahdahu lä sharika lah lahu-lmulk wa lahulhamd wa huwwa 'ală kullı shav'in gadir)
- 100 times after salātul fair.

5 To say

- 6 To read the Qur'an everyday, or listen to it if the patient is illiterate.
- 7 To be in the company of pious people
- 8 To observe morning and evening supplications

Examples of the Treatment of the Sihr of Separation

The First Case: A Jinn called Shaqwan

A woman used to hate her husband so much, to the point that the symptoms of skitv done to her were obvious She used to feel uncomfortable not only at home, especially in the company of her husband, whom she would see in a negative way, as if he were a savance heast?

Her husband took her to a heater, and the *Jimr* spoke through her genon and said that his presence in the woman was as result of skyr. Her mission was be spearable time and nor his wife. The heater hit has very hard, yet he did not respond. The woman's hastand ofto me that he take her saidly his wife to the heater for a month, until the *Jimr* tool him to do cross the wife. If the mission has the saidle of the wife respective to the heater for a month, until the *Jimr* to the him to do cross the wife. If the mission has the saidle of the wife respective took, and also movemed for a week. But, the *Jimr* returned to her, and this is the mason the man brought her to me! I recided some varses of the Guffan over her, the became epileptic. This is the summary of the conversation which took clabo between me and *Jimr*.

Me: "What is your name?"

Jinn: "Shaqwan "

Me: "What is your religion?"

Jinn: "Christianity "

Me: "Why did you enter into this woman?"

Jinn: "In order to separate her from her husband."

Me: "I have a proposal for you If you accept it, then praise is due to Allah. But if you do not, you will have a choice."

Jinn: "Do not tire yourself I will not go Her husband already tried by taking her to such and such healer."

Me: "I did not ask you to get out from her "

Jinn: "What do you want, then?"

Me: "I would like to invite you to embrace Islâm. If you accept, then praise is due to Allah. Otherwise, there is no compulsion in religion."

I kept on inviting him to Islâm, and after a prolonged debate, he eventually embraced Islâm So, I asked him:

Me: "Have you truly become a Muslim, or are you just tricking me?"

Jinn: "You cannot force me to become Muslim, but I have done it from my heart, but "

Me: "But what?"

Jihn "Now, I see before me a group of Christian Jihn who are threatening me, and I am afraid they will kill me."

Me: "This is an easy matter. If it is proven to us that you have really

Me: "This is an easy matter If it is proven to us that you have really become a Muslim, then we will give you a strong weapon which will prevent any of them from coming near you."

Jinn. "Give it to me then "

Me: "No, not until we finish our discussion"

Jinn: "What else do you want?"

The second distance of

Me: "To prove that you have become a true Muslim you should get out of this woman."

Jinx "Yes, I have become a Muslim, but how can I escape from the 2 sithe?"

Me: "This is easy, if you agree with us "

Jinn "Yes"

Me; "Where is the object used for silv then?"

Jinn "Buried in the backyard of the house where the woman lives But I cannot exactly determine the place because, there is another Jinn employed as a guard over it, and every time the place becomes known, he transfers it to another place."

Me: "For how long have you been working with this sāhir?"

Jinn. For about ten or twenty years -/ have forgotten whether it was ten or twenty- and I have inhabited three women before this lady."

The Jinn recounted the story of the three women. When it became clear to me that he was telling the truth, I told him:

Me: "Take the weapon I have promised you "

Jing "What is it?"

Me: "*āyatul kursıy*. Every time a *Jihn* comes near you, recite it and he will run away from you. Did you memorise it?"

Jinn. "Yes, I memorised it from the women, because she used to recite it often. But, how can I escape from the sāṭir?"

Me: "Get out now and go and live in Makka" among the believing

Jinn: "But, will Allah accept my repentance after all these sins? I

Me: "Yes, for Allah says: (Say: 'O my people who have been prodigal against yourselves, do not despair of Allah's Mercy; surely He is the All-forgiving, the All-compassionate)* (39:53)

The Jim cried, saying: "When I get out, ask this women to forgive me for tortuning her." He then promised to leave and he did Afterwards, I rectiled some of verse of the Qur'an over some water and I asked the woman's husband to sprinkle it on their backyard. After quite a long-while, the man informed me that his wife view swell. The woman's recovery was not due to me, but everything was from Allain \$4.

The Second Case: A Jinn Placed Sihr Inside a Pillow

A woman's husband came to me and said: "I have been involved in severe squabbles with my wrife. She hatbad me and cannot bear to hear a word! I say, and she wants to separate from me. She feels relaxed at home when I am not there, but once I walk in, she becomes against as if her body were furning with ancer."

When the woman first heard the *rugya*, she felt that her limbs became numb, her chest became fight, and she got a headache However, she did not become oplighed. I gave her an audiostope with some verses on it and advised her to listen to them for a period of forty five days, and that they revisit me . After forty five days, her husband visited me and said that something amazing had happened.

'Something good', I wondered

The transfer of the second

He repliet: 'After forty days, my wife became enjetpic and the Jifm species they are person, saying. T would inform you of everything provided that you do not go back to that healer. My presence in this woman was the result of sylf. If you want to know whether I am telling the ruth or lying, bring that plant. Are pointed to a glown in the yours and open it. You will find the object of sity therein.' They opened the pillow and, in fact, found process of paper with writings

and figures on them. The Jinn said to them: 'Burn them, so that the silv would be neutralised. Now, I will get out of her and never come back, but on condition that I appear to her to shake hands with her." The man replied, 'alrighti' The woman awoke and stretched her hand as if she were greeting someone.

When the man finished the story. I told him that he had made a mistake by letting the Jinn shake hands with his wife because, it is unlawful. It is confirmed by the hadith that the Prophet & forbids a man to shake hands with a strange woman.

After a week, the woman became ill again, and he brought her to me; and hardly had I said (qui a'ūzu billahi mina shaytāni rajīm) than the woman became epileptic, and the following conversation between me and the .linn took place:

- O: "You liar, why did you come back?"
- A: "I will tell you everything, but do not beat me."
- A: "Yes, I lied to them, and it was me who placed the pieces of paper inside the nillow so that they would believe me. I did not get out of
- her." Q: "So, you are tricking them "
- A: "What can I do when I am tied up to her body through site." O: "Are you a Muslim?"
- A. "Yes."

Q: "Alright!"

- O: "A Muslim should not work with a sähir, because it is unlawful, and situr is among the serious sins. Do you want to go to Paradise?"
- A: "Yes I want to "
- Q: "Then, leave this sāhir, and go and worship Allah % with the

believers because, the path of sal/hir is a path of misery in this life, and hell in the hereafter "

- A: "How can I do that while the sähir controls me?"
- Q: "Yes, he controls you with your sins, but if you sincerely repent. Allah will not give him the opportunity to control you anymore: (And Allah will not grant the unbelievers any way over the believers.) (4:1411)
- A: "I now repent I will get out and never return." He made a promise to Allah is not to return and then left

Al-hamdu lillah wahdahu wa lā hawla wa lā guwwata illā billah. After a while, the woman's husband came to me and said that his wife was

The Third Case: This is the last case I treated before writing the present book

A man brought his wife for treatment, saying: "She hates me and does not want to be with me, despite the fact that I love her. This hatred came suddenly, without any prior symptoms."

After listening to the rugya, she became epileptic, and the following conversation took place between me and the Jinn who spoke through her person:

- Q: "Are you Muslim?"
- A: "Yes, I am "

Well

Q: "Why do you posess this woman?"

A: "I came through si\(\hat{p}\) done against her by a woman, who placed it inside a bottle of perfume which was with her. I used to stalk her for a while, until one day a thief broke into the house, the woman (i.e. the present catient) was fightlened and so I entered into her."

It is worth mentioning, in this context, that the *sāhir* would send a Jinn to stalk the targeted person for a while, waiting for the right time to come. There are four occasions when a Jinn may enter a person:

- 1 Extreme fear
- 2 Extreme anger
- 3 Extreme unawareness
- 4 Indulgence in pleasure

If a person is in one of the above states, the *Jihn* would be able to enter However, if a person invokes Allah \$\frac{2}{3}\$ and is clean (in a state of wwwh), then Satan cannot bouch him. According to what most of the *Jihn* told me, if they were truthful, if a person invokes Allah \$\frac{2}{3}\$ at the time a *Jihn* is about to enter in him, that *Jihn* hours. Therefore, the moment of the *Jihn*'s entry tho a person is one of the most difficult excertisences in the life of the *Jihn*'s himself.

A "This woman is a good and humble person."

Q: "Then, get out of her for the sake of Allah's obedience and do not

- A: "Provided that her husband divorce the other woman."
- Q: "Your condition is rejected Get out or we will harm you."
- A: "Alright, I will get out "

He got out, and all praise is due to Allah № I further explained to the woman's husband that the Jimfs story of a woman who did the stift against his wife, was a flatrication because the Jim tell lies in order to cause divisions between people. I advised him not to believe what the Jim had said.

The Fourth Case: A Jinn Wanted to Enter Into a Healer

One healer said: "A man brought his wife for treatment and said that his wife hated him very much and felt relaxed at home, during his absence."

When I asked few questions, it appeared to me, from the symptoms she had that she suffered from sibr of separation. After listening to the rugya, a Jinn spoke in her person. Here is a summary of our dialoguin:

- Q: "What is your name?"
- A: "I will not tell you my name "
- Q: "What is your religion?"
- A: *Islām *
- Q: "Do you think it is lawful for a Muslim to torture a Muslim?"
- A: "I love her, and I am not torturing her." All I want is that her husband should keep away from her."
- Q: "You want to separate them, don't you?"
- A: "Yes."
- Q: "You cannot do that Get out of her, for the sake of Allah's

obedience "

- A: "No. I love her."
- Q: "But she hates you"
- A: "No, she loves me."
- Q: "You are a liar. She hates you and that is why she has come here to get you gut of her body."
- A: "I will not get out "
- Q: "Then, I will burn you with the Qur'an (by reciting verses) "

I recited some verses over her and he screamed

- Q: "Will you get out now?"
- A: "Yes, but conditionally "
- Q: "What is your condition?"
- A: "To get out of her and to enter in your body."
- Q: "All right, get out of her and enter into my body if you can "

The Jinn waited for a moment then cried

- Q: "Why are you crying?"
- A: "No Jinn can enter into your body today "
- Q: "Why?"
- A: "Because this morning, you said:
- (läiläha illällah waḥdahu lä sharika lahu lahu-lmuk wa lahulḥamd wa huwwa 'alā kuli shay'in qadīr)

100 times

And the Prophet & was truthful when he said: "Whosoever says:

(läiläha illällah waḥdahu lä sharika lahu lahulmuk wa lahulhamd wa huwwa 'alä kulli shav'in gadih'

100 times a day, will have a reward equal to the manumission of 10 slaves, will have ten good deeds added to and ten had deeds erased from his register, and will be protected by this supplication the Satan throughout the day until the evening. No one is better than he who says this supplication except a man who says more?"

¹ Al-Bukhār F: (in Fath Al-Bār F, 6/338) and Muslim (An-Nawaw F, 17/17)

2. Sihr Al-Mahabba / At-Tiwala (Love)

The Prophet sk said: "Ar-ruqā, at-tamā im and at-tiwala are acts of polytheism "1

According to the Al-Athlir, at-tiwale is a type of site which makes a man love his wife. The reason why this type of site is classed by the Prophet 8 as an act of polyhelem is because those who have it done for them believe that it has an effect and does the opposite of what Aliah 8 thas prescribed 2.

I would like to emphasise that the *ruppe* referred to in the above haddle is the one winh seeks the assistance of *liken* and devils and consists of acts classed as polyfleistics. However, the *ruppe* which is absord on the *Outrin* and *linkil* aspositations of Allah is tawful. All as according to scholars. It is reported in *Sulph Maslett* mat the Prophet is war upon the same superior of the sulph as a superior sulpher is no harm in using *ruppe* as a remains of treatment provided it does not consist of anything polyfleistic.

Symptoms of Sihr of Love

1 Excessive love and passion

2 Extreme desire to have sexual intercourse

3 Impatience of remaining without having sexual intercourse 4 Extreme lust at the sight of one's wife

5 Blind obedience to one's wife

How the Sihr of Love Takes Place?

Martial equabbles often happen and are resolved within a short time, and file goes back to normal between a ram and his wise hortween, a worman who cannot show patence, would immediately go to a worman who cannot show patence, would immediately go to a skiff and as the hist work cot at a sky which would six he to be very much loved by her hashard. Adverse Effects of Sihr of Love

- 1 Sometimes a man falls ill as a result of this sihr. I even heard that a man was ill for about three years.
- 2 Sometimes the s/h/ backfires, and the man would hate his wife. This is due to a lack of knowledge of the principles of s/h/r.
- 3. Sometimes a woman asks the sāḥir to prepare a double-effect sihr which makes her husband love her alone and hate all other women. This results in the man's hating his mother, sisters, maternal aunts, caternal aunts and all female kinship.
- 4 Sometimes the double-effect sihr backfires, and the man ends up z by hating all women, even his wife. I knew a similar case in which a man hated his wife and eventually divorced her. The woman

went back to the sorcerer to cancel the sihr, only to find that the sihr had died

Causes of Sihr of Love

1 Marital squabbles

- 2 The woman runs after her husband's wealth, especially if he is rich.
- 3 The vorman suspects that her hrustend is going to many another yournal adhough this landful under lateral claus and the son harm in it. However, a worman of the greener time, especially of the inhustend words to estanctive most in which sold believe that it is related to the destructive most, would believe that for inhustend words to many exorter worman it means that he does not love her anymore. This is a grown striked because there are severed factors which cause a man to many up to fur worman capitals his love of the fact wife. Then, is, for instance, his desire to have many children, his inability to stay without sexual insecourse during his wife's mentation, during the post-matal bleeding (damu an-nitias), or his intention to establish a residentihally with a certain family.

Lawful Sihr

This is my advice to a Muslim woman that if she wants to enchant her husband, she can do so by:

 Making herself look very beautiful and attractive to her husband, without letting him come across any ugly feature or unpleasant smell in you

- Giving him a nice smile
- Talking to him nicely

- Keeping good company with him
- Safeguarding his wealth
- Taking good care of your children
- Obeying him in all matters, except a matter in which he obliges you to disobey Allah

However, there is a stark contradiction in our society body, concerning these matters. For examing, if a women is invited to a party at the friend's, the would wear her best dress and her best providy as if the were on her wedding night. When she comes back home, she takes off her jewelly and puts it back for the next party or the next visit, which her poor hashand, who has bought that put the next visit, which her poor hashand, who has bought that put the next visit, which may be not provided in the provided of the next visit, which may be not the provided of the next visit of the poor hashand, and of codeling, concerns and sention.

If the were a bit considerate, she would realise that her husband is the one who deserves to see her in such a lessufful appears. Therefore, when your husband goes to work, try to finish the housework. The west hyourself, make yourself work beautish of attractive, and wait for him. When he comes back home, and sees a beautisht woman before him. finds demer ready and a titly home, his love for you will increase and he will feel wry much more attached to you. Hence, this is the shadt form of ship is expectably flyour limit in a time of the shadt from of ship is expectably flyour limit in making yourself book beautiful is to obey Allah and help your husband states in from looking at other women. The patient's wife must not learn about her husband's treatment, because she may go to the sathir again and request another spell

An Example of the Treatment of the Siḥr of Love: A Man Guided by his Wife

A patient informed me that he was leading a normal marital life, until few months ago when he began to feel strange

He said, "Gennot stop thinking about my wife when I am at work," and when I came back home from work. I said tooking at her If I have guests, I would serve them allone, from time to time, In order to see her I field externally jealous for her I keep a likt of company with her, and it seems as if she were guiding me. I recited some verses of the Qur'an on some water and ordered him to drink and wash from it, for three weeks, and to visit me immediately after this period, without his wife's knowledge. 3: Siḥr At-Takhyīl (False Appearance of Objects)

Allah ≰ savs:

How to revoke it

This type of sith is revoked with all the supplications which expel the Jinn out of a place, in general, such as:

- 1 Announcing the Addn
- 2 Reciting avatul kursiv.
- 3 Reciting lawful supplications for the expulsion of the *linn* from a place
- 4 Saying bismillah;

7: Sihr Al-Maradh (Illness)

Symptoms

- 1 Constant pain in one part of the body
- 2 Epilepsy.
- 3 Paralysis of one area of the patient's body
- 4 Total paralysis of the body
- 5 Disability in of one of the sense organs

I would like to emphasize that some of these avergeons may be senilar to those of a normal physical limbs in order to distinguish between the symptoms, the healer should recke the ruggeover the pentent. If the patient field sizely becomes much, has a headante, or if there is a change in the patient's body during the rectainty or if the size is a change in the patient's body during the rectainty or in the size of the size o

How this is Achieved

It is common that the brain is the main regulator of the body. This, means that every human organ has a control centre in the brain, from which it receives codes. For example, if you try to put your

finger in a fire, the finger sends a fast code to the sense centre in the brain, and then receives orders from this centre, warning it to keep away from the source of danger. In response, the hand moves away from fire. This interaction takes place within a fraction of a second:

(This is Allah's Creation; now show me what those have created that are part from Him!)

(31:11)

Through this sih, a Jihn settles in a person's brain, in the sensual centre of hearling, sight, feeling of the hand or the leg, as directed by the sshir As a result, the response of a limb may be one out of three conditions:

- 1.The Jinn may—with Allah's Ability—completely prevent signals from reaching a limb or organ. As a result, a limb stops functioning, so the patient may become blind, dumb, deaf or physically paralysed
- 2 The Jinn may -with Allah's Ability- sometimes prevent signals from reaching a limb or organ, and may sometimes let them reach it. As a result, the limb or organ sometimes functions and sometimes does not.
- 3 The Jinn may cause the brain to send fast successive signals without any reason. Consequently, the limb may become frigid and unable to move, even if it were not paralysed.

However, any harm a person sustains, under the effect of sihr depends on Allah's & Will, which should not surprise you:

€ yet they did not hurt any man thereby, save by the Leave of Allah } (2:102)

Yet in the past, many doctors would neither acknowledge nor believe this fact. However, when they witnessed several cases, they had no choice but to believe and submit to Allah's is: Ablitly One day, a doctor came to me and said: "I have come to see you about an issue

which has shocked me *

I said: "What is it?"

He said: 'A man brought his paralysed to me for treatment. When I count must have suffering from a disease in his verticence; a disease which, according to doctors, is invursible, whether through superpy or otherwise. A few weeks later, the man earner and I asked him about his paralysed son. He said, Philis be came and I asked him about his paralysed son. He said, Philis be came and walk.' I said, 'Who has useded him?' He regiled, 'Wahld (suthor of the Arabio version'). This is the reason in have come, to find out from you how you treated

I said: "I recited some verses of the Qur'an over him, then recited a rugya on al-habba as-sawdā' (black seed oil) and advised them to rub it over the paralysed areas of his body."

Treatment

- 1 Recite ruqya on the patient three times. If he/she becomes epileptic, follow the same steps of treatment as specified above
- 2 If the patient does not become epileptic, but feels slight changes:
 - a)Record the following chapters on an audictape and advise him/her to listen to them three times a day: Al-Fātiḥa, Āyatul kursiy, Ad-Dukhkhān, Al-Jinn, any other short chapters of the Quran and Al-Falag and An-Min.
 - b)Recite the following rugyar over black seed oil and advise him/her to rub it on his/her forehead and the painful area in his/her body in the morning and evening:

(Allahumma rabba an-nāsi, aḍhibil-ba'sa washfi anta shāfī lā shifā'a illā shifā'uka shifā'an lā yughādiru saqama).

Advise the patient to follow these instructions for a period of sixty days. However, if he/she does not recover, recite the racyar another time and advise hirther to follow the same instructions for the same period, according to your judgement and the improvement of his health condition.

A Jinn reveals the site where an object used for sihr was buried

A young man came to me and explained that he was ill. I rectiod a ruge, then a Jim's poke through him, saying that he was entrusted with the sith came to the young man. He showed us the sith rest works with and the place where the sith was buried (at the decorate) I asked the Jim's to leave and he did. The young man's family went to the location foliaced by the Jim's and dug by the doorstep. They found shredded pieces of paper with figures on them. They dissolved them in water and the effects of sith were pacified.

8: Siḥr An-Nazīf (Bleeding Following Menses)

How it is achieved

This type of sith affects women only. A sähir sends a *ulmi* to the targeted women and instructs him to cause her to bleed. To do so, the *ulmi* enters his woman's body and circulates in her veins and arteries with the blood. This notion of circulates has king been warned about by the Prophet & in the following tradition: "Satan circulates in man's body like blood."

When the Jihn reaches a known vein in the woman's womb, he stomps it so that the vein bleeds. This fact was also pointed out by the Prophot & when Hamna bint Jahah asked his opinion not succeed to bleeding outside the period of menses, and he said: "Such bleeding is but no of Statan's stomping." 2

According to another tradition, the bleeding "is the result of Satan's stomping on a vein rather than from a normal menses". 3 Therefore, according to both traditions, a menstrustion that occurs outside its normal period is one of the Satan's stomps on one of the wormb's works.

¹ Al-Bukhārī: (Fath Al-Bārī: 4/282) and Muslim (An-Nawawī. 14/155)
2 According to At-Tirmiḍī, the above tradition is sound and authentic, according to Al-Bukhārī, it is sound

³ Imām Ahmad and An-Nasāī (a very good chain of transmission)

Definition of Sihr An-Nazīf

According to scholars of Figh (jurisprudence), an-nazif refers to alistihadha (continuous menstruation), and according to doctors, it refers to bleeding

According to Ibn Al-Athlir, al-istinādha means bleeding following a normal menses!

This bleeding may last for months, and the amount of blood could be little or large

Treatment

The healer should recite the *ruqya* over some water and advise the patient to wash her body for three days, then the bleeding should, by Allah's Leave, cease

An Example of Treating Sihr An-Nazīf

A patient came to me and explained how she was bleeding heavily. I recited the rugya for her and I advised her to listen to some verses of the Qur'an on audiotapes, which I gave her. A few days later, her bleeding stopped.

As regards the writing of verses of the Qur'ân on pieces of paper, washing them with water and drinking the water, it is lawful according to libn Taymiya: "It is lawful to write some verses of the Qur'ân or words of supplication in a lawful ink and advise a person affected by sight to wash and then drink from it as Insiam Abmed and other scholars held "1

As for the <code>salat</code>, <code>siyam</code> and other acts of worship of a woman who continues to bleed outside her normal menses, see the books on <code>Figfs</code>

9: Sihr of Impeding Marriage

How This is Done

A grudging person would go to a wicked sorcerer and requests that a sibr be done to a certain person's daughter to thwart her marriage. The stahir would request her name, her mother's name and a trace of her hair or smell (on a piece of garment). Once these are provided, the sorcerer would work out the appropriate sibr and instruct one Juna, or more, to stalk the girl until the opportunity comes to enter her which is, define fund now and the fund reconscious:

- 1 Extreme fear
- 2 Extreme anger
- 3 Extreme unawareness
- 4 Indulgence in pleasure

The Jinn has Two Options

- 1. If he can enter the girl, then he would cause her to feel uncomfortable with any prospective husband and; thus, turn him down.
- 2 If he cannot enter the girl, then he would use the sihr of imagination, from outside. As a result, a suitor would see the girl in an ugily image under the effect of the Jinris whispering, and so would the cirl.

Under the effect of this sihr and under the Jinn's whispering, a suitor,

who would have initially agreed to the marriage, would decline after a few days, without any valid reason

In cases of a strong silhr, a suitor would, upon entering the house of his prospective wife, feel very uncomfortable and see darkness before him as if he were in prison, and so would never return

During the period of this si/hr, the Jinn may cause the girl to experience occasional headaches

Symptoms

- 1 Occasional headaches, which persist despite medication
- 2 Severe tightness in the chest, especially between al-'asr and midnight
- 3 The patient sees the suitor in an ugly image.
- 4 Absentmindedness
- 5 Anxiety during sleep 6 Occasional constant stomach-aches
- 7 Pain in the lower part of the back

Treatment

- The healer should recite the rugya specified above. If the patient becomes epileptic and the Inn speaks through her person, follow the same treatment as set out above.
- 2 If the patient does not become epileptic, but feels a change in her body, advise her to do the following:
 1 To wear a hidib
 - 2 To observe şalāt on time

3 Not to listen to songs or music.

- 4 To do wudhū' before going to bed, and to read ayatul kursiy.
- 5 To join both arms closer to the face, reciting ai-mu'awwizāt (Qur'an:113 and 114), spitting onto the hands, and rubbing the body three times before going to bed.
- 6 To listen once a day to the recitation of *Byatul kursiy* repeatedly recorded on a sixty-minute audiotape
- 7 To listen once a day to the recitation of ai-mu'awwizāt (Chapters 112, 113 and 114) repeatedly recorded on a sixty-minute audiotape
- 8 To drink and wash once, every three days, from water on which the rugger has been recited by the healer.
- 9.To recite:
- (lāilāha illāllah wahdahu lā sharika lahu lahulmuk wa lahulhamd wa huwwa 'alā kulli shay'in qadīr)
 - 100 times after salātul fair

These instructions must be followed for a whole month, after which period:

- 1 the symptoms might with Allah's Leave cease, since the illness may have been cured by the cancellation of sibr, or
- 2 the pain might grow and the symptoms might intensify In this case, recite the rurge specified above. The patient would then with Allah's Leave- become epileptic. So, the treatment specified above should be followed.

An Example of Treating the Sihr of Impeding a Marriage: A Woman Consents to her Marriage but then Declines the Following Moming

A young man informed me about a girl whose character was strange if someone asked her to many him, she would agree and would be happy to do so, but the following morning she would change her mind and refuse to many without giving any reasons for her refusal. This state of affairs, he explained, was repeated several times to the extent that toeone became suspicious.

I recited the *rugya* specified above and a female *Jinn* spoke through her:

- Q: "Who are you?"
- A: "I am (I cannot remember her name) "
- Q: "Why did you enter and possess this girl?"
- A: "Recause I love her."
- Q: "But she does not like you. What do you want from her?"
- A: "I do not want her to marry "
- Q: "What did you do to her?"
- A: "Whenever a suitor came to her and she consented to the marriage, I would threaten her during her sleep, that I would do such and such thing to her if she married."
- Q: "What is your religion?"
- A: "Muslim."
- Q: "This is unlawful, for the prophet is said: "A person should not harm his Muslim brother by removing any of his rights,"1 and what

Part of the second for

¹ Ibn Mājja (2340-2341)

The Jinn was convinced by what I said to her, and so she left the girl, who regained her normal consciousness.

Important Facts on Sihr

be obtained by:

- 1. The symptoms may be similar to those of lunacy
- 2 Constant stomachaches indicate that the patient has eaten or drunk the silv that was prepared against him/her

3 Treatment with the Qur'an is possible provided that:

- a The healer be a righteous man.
- b The patient be confident and convinced of the effectiveness of treatment with the Qur'an
- 4 Most types of silps share one common symptom: a feeling of tightness in the chest, especially during the night
- tightness in the criest, especially during the riight.

 5. The disclosure of the site where the object of silvris buried may
 - a Information given by the Jinn entrusted with the task of sight. However, do not believe him until you have sent someone to look for the sight at the location specified by the Jinn if the sight is found, then the Jinn is telling the truth, otherwise the Jinn was telling lies
 - b Observing two rak'as at the last third part of the night by the patient or healer in a faithful, truthful, peaceful and submissive way. During this sallat, the patient or healer should make a supplication to Allah & in which he asks Him to show him the place where the skir is buried. One have a vision during sleep, have a feeling or be strongly

convinced about the burial place of silpr. If this is achieved, one should be grateful to Allah sic

6 One may recite the *rugya* on some black seed oil and advise the patient to rub it on any painful or affected areas of the body in the morning and evening. This is valid for all types of size.

The Prophet & said: "Al-habbs as-savda" (black seed) is a cure for every disease, except death." In some countries, al-habbs as-savda" is known as habbatu al-baraks, and in others as shabily shabila. According to Muslim's wording: "There is a cure for every disease in al-habbs as-savda" (flack seed), except death."2

A girl whose sight was restored by Allah at the place where Sihr is buried

As soon as I necled the ruspe for her, I realized that she was affected by a strong shr. She expanded that she used to see phantoms, in dreams and in reality. I advised her termity to follow contain heatherst, and the effects of shywell. by Albah's Lesson – he neutralised. They wondered if there was any way of disclosing the place where the object of silv could be studied. I explained that the best way to discover it is by moving, and showing submissionness to Albah's, expectably in the last that of it neight, as it his is the best time for A supplication to be fulfilled when Albah's discovered is to the founds hashes.

¹ Al-Bukhārī: 5687 and Muslim: 2215

² Muslim (2215) on the authority of Abū Hurayra, in the Book of As-Salām, Chapter: I reatment with Black Seed

In fact, the girl did wake up in the last third of the night, as her family informed me, and would do salati, moke and show submissiveness to Alah sir. Then, one night, she saw he a dream someone taking her by the hand and leading her to the place where the sight was burled in the morning, she recounted the dream to her family, who went to the same place that was seen in the dream and found the sight. They destroyed it and so the girl recovered.

Definition of Rabt

Ar-rabf is the inability of a physically fit and healthy man to have sexual intercourse with his wife. Before discussing the causes of arrabf, we must first know how a penille erection is achieved.

The Physiology of Sexuality in Men

Generally, a penis is a fleshy, elastic organ It erects if pumped with blood and shrinks when the blood drains out

Erection stages

Erection is achieved in three stages

1. When a man is sexually aroused, the testicles become activated and release hormones into the blood stream, until the hormones reach a high level, making the heart beat faster, and the skin flush red, as if electrically charged

2 The sexual hormones reach the appropriate centre in the brain, mactivating hormone production in a positive feedback loop.

3 The sexual excitement centre in the brain is stimulated, and so sends rapid signals to special sexual nerves in the spiral column A valve which is usually closed when there is no sexual excitement, opens and blood is pumped into spongy tissue layers of the penis, which erects fully once pumped up to a high pressure with blood

How Sihr Ar-Rabt is Done

The .inn entrusted with the task of sihr settles in a man's brain,

processy in the centre of sexual excitement which sends codes to the sexual organs; and lets the sexual organs function normally. But, when a man approaches his wife, with the intention of having sexual intercourse, the ulin threats the centre of sexual excitement in the both and blocks for signals sent to the organs which pump blood into the penis for erection. Consequently, the blood drawbacks rapidly from the penis, and the penis, shirtles.

A man, for instance, may be normal when making love to his wrife, that is, with an exceeded point if however, when he is about to penetrate intercourse, his prins shrinks, so he cannot heve sexual intercourse, and exection is an essential ingredient in achieving sexual intercourse, as we know. Sometimes a man with now when sexual intercourse, as we know. Sometimes a man with now when sexual intercourse, as the know. Sometimes a man with now when the work of the store of sexual executions of the first point of sixty point of sixty or sixt

Ar-Rabt in Women (sexual frigidity)

Just as a man suffers from ar-rabf (penile erection failure) and is unable to have sexual intercourse with his wife, a woman, too, may suffer from ar-rabf (frigidity). There are five types of rabf in women:

I faith d'amar (obstruction): I cocurs wine a woman prevents her usuband from having sessual infections with her by tightly (prining her legis together and obstructing his prinis from entering into her registar. This reaction is automatic and beyond her control, but are young main window with view siffected by this type of dath, the principal control of the response, so the expaired that it was beyond her control from response, so the expaired that it was between her logs to keep hem apart before. In the control of the principal control of the principal control of the theretoes her logs to keep hem apart before. told him to give her a drug injection if he wants to have sexual intercourse with her. It worked, but only one partner benefited

- 2 Radia achanitud (lack of sexual feeling). The Jim entrusted with the mission of alfer settles in the centre of sexual feeling in the woman's brain and causes her to lose her sexual feeling, at the moment of sexual intercourse with her husband. As a result, she feels no sexual pleasure and does not respond to her husband. Her body becomes numb even if her husband does what he wishes with her in this type of afty, the glands do not exceed the contract of the contract of
- 3. Ada/ Annual/ (bedding at the time of sexual intercourse). This is different from six annual or near specific wither, and Annual/ near specific wither, and Annual/ near specific confined to the time of sexual intercourse, spir annual/ may last or several days in this type of spir, the Julin causes heavy bedding to the targeted woman at the time of sexual intercourse with his wife. One day, one man, who was a stolker, and the prevent of the share from the wife of the spir of the days, and the prevent of the days and the spiral bedding a soon as the first was approximately five days, but would who as spons as well have been soon as the with two spiral contrasts.
- 4 Rabf Al-Insidad (blockage in the vagina): it occurs when a man finds an obstacle of flesh in the vagina which prevents the penetration of the penis, so the sexual intercourse is not achieved.
- 5 Rabi At-taghwir (loss of virginity): It occurs when a man marries a virgin woman, but finds her to be without her virginity at their first

Treatment of Rabt in Men.

Method One

Recite the *rucya* mentioned at he beginning of Chapter six. If the Jihin speaks through the patient's person, ask him about the place where the *sith* is burled. If he does, destroy the *sith* and sk him to get out of the patient's body, and once he leaves, the *sith* would be invalidated. But, if you recite the *rucya*, and the *Jihin* falls to speak, use the other methods.

Method Two

Recite the following verses several times over some water and advice the patient to drink and wash from it, for few days:

﴿ وَأَوْحَيْنَا إِلَى مُوَىنَ أَنَّ أَلِي عَصَاكَ أَوْاَ هِى َلَمَقُكُ مَا إِنْكُونَ ﴿ فَوْقَا الْحَنَّى وَيَقَلَ مَاكَانُواْ يَسَلُونَ ﴿ فَضُلِيوًا فَعَالِكُواْ فَلَقَلُواْ صَغِينَ ﴿ وَأَلْقِيَا السَّحَرُةُ سُعِيدِينَ ﴾ قَالْوَاءَ امْتَنَارِبَ الْعَلَيْنَ ﴿ وَقَالَ مُوسَى وَهُدُونَ ﴿ وَهُدُونَ ﴿ }

Method Three

Coals seven leaves of green losts and put them in a pot of variety from gour mouth close to the pot, and set the rectanded sevens whilst rectined plants furnity, elf-plant (113) and Annais (114). Anice the potent to drink and wash from the water, for a few days, without adding any varietr to it to healing it. If the pointer wants to bealt, if then advise this to do so with the suit have. The water should not be poured in a filtry place during washing. This wood, by Allants with cancel the mid-plant during washing. Method Four

Recite the rugys and also the following verse in the patient's ear:

Repeat one hundred or more times until the patient's limbs feel numb. Repeat this *rugya* for a few days until the patient feels normal. At that time, rest assured that the *sign* would -with Allah's Willi- have been invalidated.

Method Five

Al-Håfidh reported in Fath Al-Bärr. Abdurazzäk transmitted through Ash-shaft). There is no harm in using the Arabic nusbra, which means the paisiot should pick leaves from the right and left sides of a tree, crush them and mix them with water, then rectle the rugya (§patul Kursy, al-False (113) and an-nils (114)) on them, and wash himself with the valor !

You (patient) should collect as many spring flowers, wild and garden ones, and boil them lightly in a clean pot of fresh water. Wait until the water settles, rectile *šyatul kursy, ali-fatul* (113) and *An-rais* (114) over the water, then wash yourself, and you would --with Allah's Will -- be cured if

Method Seven

Recits āyatul kursiy, al-Falaq (113), An-nās (114) and the following supplications over a pot of water, then drink and wash from it, for few days and you would – with Allah's Will – be cured:

(Allahumma rabba an-nāsi, aḍhibi al-ba'sa washfi anta shāfi lā shifā'a illā shifā'uka shifā'an lā yughādiru saqama)

Method Eight

Write the verse

'A' lūdu billahi mina shaytāni rajīm, (wa 'awh aynā 'llā mūsā 'an 'alqi 'asaka fa'idā hypya talqatlı mā ya Tikūni, fawaqa' ah-haqqu wabatalai mā kānū ya' malūni, fa ghulūbi malikia wan-qalabā sāghinin wa 'utqyyas-saharatu sājidina, qālū 'āmannā birabbii-'ālamīn, rabbi mūšā wa hāfanā ('1117-129).

on a clean dish with clean ink, rub it out with black seed oil, then drink it and rub it in on your chest and forehead, for three days. The sixfor abthwould—with Allah's Will- be invalidated. According to bin Taymiyya, it is lawful for the ill Muslim to write verses of the Qur'ân or supplications on a vessel (dish, etc.), rub the writing out with (waterblack seed oil) and drink the waterfoil 1

Method Nine

Write the appropriate nugya on a clean vessel with a clean ink (saffron, for instance), wipe it out with water, then drink the water and wash yourself with it, for a few days; and the silv would, with Allah's Will be irrealidated

Difference between Ar-rabt, Al-'ajz al-jinsī (impotence) and Adh-dhu'f al-jinsī (sexual weakness)

Ar-Rabt.

The man affected by this type of sith feets active and energetic about having sexual intercourse with his wife. His penis is even erected as long as he is distant from his wife. Nevertheless, as he approaches her, his penis shrinks and is unable to have sexual intercourse.

Al-'ajz al-jinsī (sexual inability / impotence):

It means a man's inability to have sexual intercourse with his wife, whether he is distant from or near her, as his penis cannot exect

Adh-dhu'f al-jinsi (sexual weakness):

A man can only have sexual intercourse with his wife after long periods. Sexual intercourse takes place for only/a short time; after which the penis looses its rigidity.

¹ Maimū'Al-Fatāwā: 19/64

Treatment of Ar-rabt, Al-'aiz al-iinsī (impotence) and Adh-dhu'f al-jinsī (sexual weakness)

For the treatment of ar-rabt refer to the nine methods mentioned above As regards al-'alz al-jinsi' (sexual inability/ impotence), it may be treated by doctors1 However, as for adh-dhu'l al-linsi (sexual weakness) use the following treatment:

- 1 Mix one kilogram of pure honey with two hundred grams of local ghizā' malikat an-nah/(honey produced by the queen bee) 2
- 2 Recite al-Fătina. Ash-shrh (94), ăvatul kursiv, al-Falag (113), and An-nās (114) over the mixture
- 3 Eat three spoons every morning, before eating any food, one spoon before lunch, and one spoon one hour before dinner
- 4 Continue the course of treatment for one or two months, depending on the degree of weakness; and the sihr would -by Allah's I eave- he invalidated.

Types and Causes of Sterility

Sterility in Men

There are two types:

1 Organic Sterility: This type may be treated by doctors if they could

2 Sterility caused by Sihr. This type is caused by the Jinris presence in a man's body. It is treated with the Qur'an and invocations of Allah

Generally, fertility in men requires that the sperm count be at least twenty million per cubic centimetre of semen. Sometimes, a Jinn may interfere with one of the teste which produce spermatozoa, by pressing it or by other means; so that the testis would not produce the required sperm count to fertilise an ovum

When the spermatozoa move from the testes to the gonocyte, they require much clear fluid which is secreted and poured into the genecyte by a specific gland. This fluid acts as nourishment for the spermatozoa stored in the gonocyte. Again, the Jinn interferes in this process by preventing the gland from secreting the clear fluid: and thus, denying the spermatozoa stored in the gonocyte of their nourishment. As a result of this Satanic interference, the spermatozoa die and fertilisation is not achieved

¹ If they could

² Preferably, the honey should be fresh, as it is only preserved in the freeze, and its nutritional value diminishes daily, until it is lost completely. There are three types of queen bee honey, listed below as by order of quality:

¹ Al-Ghida' Al-Jabali: the highest quality, found in some Yemeni regions and Saudi Arabia

² Al-Ghidt'u Al-Misri (Egyptian)

³ Al-Ghidā'u At-turkī (Turkish)

Difference between Natural Sterility and Sterility caused by Sihr

Sterility caused by silly has the following symptoms:

1 A tightness in the chest, which begins at at-'asr and may last until midnight

2 Absentmindedness

3 Pain in the lower part of the spine

4 Anxiety during sleep

5 Nightmares

Sterility in Women There are two types:

Treatment of Sterility

1 Listening to the rugya on an audiotape, three times a day

2 Reciting or listening to Assaffat chapter, in the morning

3 Reciting or listening to Al-Ma'āni chapter, before going to bed

4 The healer should recite the following chapters and verses of the Qu'ân on some black seed oil and advise the patient to rub the oil on the chest, forehead and spine before going to bed: ALF Fâtha, Ayatul Kursy, the last verses of ALFBagara and All Imraîn

5 The healer should recite the same verses over some pure honey and advise the patient to take one spoon, every morning before eating.

 The patient should follow this course of treatment for several months, abding by Aliah's Command with respect to lawfulness and unlawfulness in order to be counted among the truthful believers whom Aliah ¼ exclusively curse with the Qur'ân as the following verse Indicates:

(And We send down, of the Qur'an, that which is a healing and a mercy to the believers...) (17:82)

In fact, several cases of this type of sterility have been treated, by the Grace of Aliah $\dot{s}\epsilon$

Treatment of Premature Ejaculation

Generally, immature ejaculation may be natural, and doctors may treat it, using several techniques, among which are:

1. The use of ointments that freeze the sensation

2 Advising the sufferer to preoccupy his mind with other matters

during intercourse

3 Advising the sufferer to resolve some mathematical questions during intercourse

Premature ejaculation may be caused by excitement triggered by a Jinn within the prostate gland. This can be treated by making the following invocations, for at least three months:

a) Saying:

(Jāilāha illāllah waḥdahu lā shanka lahu lahulmuk wa lahulhamd wa huwwa 'alā kulli shay'in qadīr) 100 times after salātul fajr:

- b) Reciting or listening to Al-Mulk, before going to bed
- c) Reciting Ayatul kursily, three times a day
- d) Making the following invocations, three times in the morning and three times in the evening:

(A'üzu bikalimāti Allahi at-tāmmāt min sharri mā khalaq) (Bismillahi at-lazī lā yadhurru ma'asmihi shay'un filardhi walā fi as-samā'i wa huwwa as-sami'u at-'alīm')

(A'ūzu bikalīmāti Allahı at-tāmma min kullı shayṭānin wa hāmma wa min kullı 'aynin lāmma')

Protective Measures against Siḥr in General

By and large, ar-rady usually occurs to a young man, upon his marriage, especially if he lives within a community in which there are leved scrosers. The question at hand. Can the brids and groom be protected against any ally worked out against them before their marriage? The answer is: yes I will list these protective means below. However before doing so, I would like to share with you the following incident.

There was a righteous young man, who used to invite his townsfolk to Islâm, inside and outside his town. He would usually do so by delivering sermons that urged people to have pure monotheism and clear faith. He would also advise them not to go to the sorcerers and explain to them that s/hv is a form of disbelief and a sāhir is a repulsive man who shows animosity to Allah 5¢ and His Messenger In the town, there was a sāḥir who was well-known among the neonle. Whenever a young man wanted to marry, he would go to him and say: "I am getting married on such and such day. What is your request?" The sahir would ask for a sum of money, and the voung person would unhesitatingly give the money Otherwise, the sāhir would punish him by working out sihr ar-rabt against him, which would disable him to have sexual intercourse with his new wife. In that case, the young man would have no choice but to go back to the sāhir and request him to cancel the sihr; but the price would double by this time

This righteous young man used to fight this signir publicly and disclose his evil at the mosques' publist, and at private and public meetings. He would disclose his name and warm people not to go to him. The young man was single, and people waited until his

wedding day to see the sāḥir's response and whether the righteous young man would be able protect himself from the sāḥir.

The young man eventually got married, but prior to his first intercourse, he came and told me the story. He said, "The said" threatend to harm me and people are waiting to see who will be the winner. What do you think? Can you give me some some against shift, bearing in mind that he would do his best to work out the most effective sight rish the possibly could because, I have humillated him so much before people." I said, "Yes, I can –by altable said which is always—that on one condition."

He said. What is it?

the criminals *

I said, 'Tell the sāḥir.' I am getting married on such and such day. I challenge you Do whatever you can, but if you cannot succeed, bring whosoever you can among the saḥara, and make this challenge public."

The young man said hesitantly, "Are you sure of what you say?"

I said, "Yes I am, for victory is to the believers and humiliation is for

In fact, the young man sent the message to the sāfir, challenging him to do what he could and informed him of his wedding day. People looked forward to this difficult day.

I gave the young man some protective means which I shall list later

The young man eventually get married and had his first intencourse, without being affected by the self-vector dut by the man or by the counting of any decisions are self-vector and stunned by the event which could be self-vector for self-policy and vector and stunned by the event which self-policy and vectors of the people (those with true applied and of Allah's protection to them before people of fisherhood. An Example of the Cancellation of Ar-Raht

There are numerous cases and examples for the cancellation of arrabt. Nevertheless, I will only cite one example, lest they should take too long. One day, a young man came with his brother who had not married a week before and had not been able to have intercourse with his new wife. He took him to sorcerers and clairvoyants, but if was to no avail. When I learnt that he had been to see them, I asked him to seek sincere and truthful repentance from Allah # and to declare his disbellef in those sorcerers and clairvoyants, so that his faith would be valid and would assist in the process of treatment. He explained that when he went to them, he was more convinced of their untruthfulness, trickery and weakness. I recited the rugvs for him and asked them to provide seven leaves of green lotus, which they were unable to provide So I got seven leaves from caphor tree They grinded them with two stones, and I put them in some water and recited avatul kursiv. al-Falac (113) and An-nas (114) I advised the patient to drink and wash from the water, which he did and his rabt was cancelled at once.

A Sihr of Rabt which turned into Lunacy

There was a wise young man who got married, but on his wedding night, he found out that he was affected by the shirt of ar-nay, which was later translated into lunary. Cases of the conversion of size into unexpected effects are numerous movadays. This is due to the socrower's sportance of the size at Awoman, for example, went to a sight and requested him to work out a size which would make ber husband hate all women except her. In fact, the size worked out a sight hand the size of the size of

the sihr made him hate all women, including her. He even divorced her. She went back to the săḥir in the hope of cancelling the siḥir, only to find that he had died.

In any case, the young man walked about in the town, turning his face to the ground, and screamed like a lunatic I recited a nuty over some water and grinded lotus leaves, and then advised him to drink and wash from it. He did this, and subsequently recovered

Allah says: (He also said, 'O my sons, enter not bu one door; enter by separate doors. Yet I cannot avail you anything against Allah; judgement belongs not to any but Allah. On Him have I relied, and on Him should reliant persons rely And when they entered after the manner their father commanded them, it availed them nothing against Allah; but it was a need in Jacob's soul that he so satisfied. Verily, he was possessed of a knowledge for that We had taught him; but most men know not)(12:67-68)

According to Al-Häflidh Ibn Kathir, in this verse Allah 16 informs the reader that when Allah's Messenger Jacob set Benjamin with his brothers to Egypt, he advised them not to enter from one door, but to enter from different doors. This is because Jacob's said sons. as the exegetes Ibn 'Abbās &, Muhammad Ibn Ka'b &, Mujāhid &, Adh-dhahāk &, Qatāda & and As-suday & have held were so handsome that he feared for them from being afflicted with the evil eve. The evil eye is a reality and could bring a knight down from his horeo

Jacob's sa statement, (Yet I cannot avail you anything against Allah) means that such precaution will not stand against Allah's Qadhā' (preordainment) and Qadar (destiny), for if Allah % has decided something, nothing can overturn it

According to Ibn Kathir, (And when they entered after the manner their father commanded them, it availed them nothing against Allah: but it was a need in Jacob's soul that he so satisfied) is a means of warding off the evil eye 1

Allah & savs:

(The unbelievers well-nigh strike thee down with their glances, when they hear the Reminder, and they say, 'Surely he is a man possessed) (68:51)

According to Ibn 'Abbās &, Mujāhid & and other exegetes, this is a reference to the evil eve of unbelievers which is indicative of their inalnusy of Allah's Messenger is because they hated him. And were it not for Allah's protection, their evil eyes would have affected him. This is further evidence that the evil eye and its effects are a reality 2

lealousy, that comes from a despicable person to affect another 1

According to Ibn Al-Athir, a person is said to have been affected by the evil eye if an enemy or a jealous person has looked at him, and that look has affected him; so that he becomes ill, as a result ²

According to Itan Al-Qayyim, people with less knowledge deried the existence of the evil eye and claimed that what has been said about it was only imaginary. These people are the most ignorant, lacking knowledge of spirits and souls, their characters, actions and effects. However, wise people of different religions do not reject the existence of the evil eye, despite their disagreement on its causes and effects.

There is no doubt that Allah % has created the human body and soul with different forces and dispositions, and endowed several of these hodies and souls with influential characteristics. No wise man could deny the influence of the soul on the body. It is something tangible For instance, observe how one blushes out of respect and shyness, vet becomes so yellow out of fear. In fact, there have been many cases where a person has fallen ill and become weak as a result of a plance. All of these take place under the effect of people's souls The strong link between the soul and eve has led to the assumption that it is the eye which affects a person, who has been stared at, but in reality it is the hidden observing soul. Generally, souls differ with respect to natural disposition, power, and other special features The soul of a lealous person, for instance, is obviously harmful to the targeted person. This is why Allah % ordered his Messenger @ to seek refuge with Him from the evil of a jesious person. The influence of a jealous person and the harm caused to another person is a fact which only someone with no knowledge of the human condition would deny; and it constitutes the basis of the evil eye. This is to say that an evil, jealous soul takes on an evil character, and when confronting a targeted person, it affects him with that specific character. A stake has a similar disposition. For example, variorm exists in the stake with power. When confronting its enemy, the snake becomes anyny and takes on an evel, harmful deposition, which, if intensified, may cause miscarriages or blindness, as the Prophet 6 said occentring labelores (e naske with short or multised tail) and \$\text{Disposition}(\text{intensity})\$ es naske with two white lines on its back). They cause blindness and miscarriages.

The influence of the oil sign may be caused by communication, ancounter, sight of through the influence of a sool on a targeting manner. Sometimes, it is caused through innocations, rugge and the reclatation of version of seeking refuge with Juliah size from evil (113 and 114), and sometimes through illusions and integration. The influence of the properties of the influence with the order of properties. The properties of t

The influence of an evil eye comes from a person's admiration, followed with an evil disposition of the soul, which derives its strength from glancing at the target. A man may even, against his will, affect himself with the evil eye 2.

The Difference between the Evil Eye and Jealousy

- Jealousy is more general than the evil eye. A person with an evil reg is a specifically jealous person. Therefore, every price as year of the price of a person with an evil eye. Hence, the seeking of retuge with Alba is mentioned in the Our'an (Chapter 113) refers to be pealous. Therefore, is a fluetime seeking or though evil eyes, the evil of the jeas of the price of the price of the price of the method of the Our'an' of the price of t
- Jealousy is caused by resentment, hatred and the desire to see a person stripped of his blessing The evil eye, on the other hand, is caused by admiration and approval
- Jedacay and evil eye share the concept of inflamence; both of them can iffact a target However, they differ in their best of explosery stems from the heart's burning desire to see the supported person have all coft bessings, then see him desired, the self eye on the other hand, emanates from the gaze of the eye. Therefore, a person with an ore leye may affect a self-town which he is not jealous; inanimate things, animals, crops rome, y ten my even affect thisself with his own or leyer. This is a stare of admiration, followed by a certain disposition that affects the largeted person.
- A person may be jealous of something predictable, whilst a person with an evil eye may only affect what is actually present
- Man does not get jealous of his ownself or his wealth, but he may affect these with his evil eye
- Jealousy only comes from an evil, resentful soul; but evil eye

may come from a righteous person who admires something without having the dealer to see it taken away. 'Amir Ibn Rabt'n affected Sahl Ibn Hungyi with the evil eye, despite the fact that he (Amir) was among those who not only embraced islâm at an early period, but participated in the Battle of it in the Battle of Intelligence.

Among the scholars who dealt with the difference between jealousy and evil eye, are: Ibn Al-Jawzi, Ibn Al-Qayyim, Ibn Ḥajar and An-Nawawi.

It is recommended that if a Muslim sees something he likes, he should invoke Aliah \$t to biess it, whether it belongs to him or to someone eise; according to the Propher's a advice to Sahl Ibn Hunsyf. "Why don't you invoke Aliah \$t to biess it"; that is, to ask the him to biess whatever he had, for the invocation of Aliah \$t thwarts the influence of the evil eye.

A Jinn May Affect Man with its Evil Eye

Abû Sa'îd Al-Khudri ille reported: "The Prophet ille used to seek refuge with Allah ille from the Jimz, then man's evil eye. But when the Chapters 113 and 114 of the Qur'an were revealed, he adopted them, and discarded any other inappropriate invocations."

Ummu Salama reported: "the Prophet & observed a girl in my house, whose face had a black spot and said, "she is under the effect of an evil eye; so treat her with rugya".

¹ At-Tirmidi: 2059, the Book of Medicine, and Ibn Majia: 3511

According to the above traditions, the evil eye also comes from the Jinn Therefore, a Muslim should invoke Allah & upon undressing, looking in the mirror, or starting any task in order to ward off the harm of the Jinn's evil eye, etc

Treatment of the Evil Eye

There are several methods for the treatment of the evil eye among which are:

The First Method: Washing

LA etresm in Al-Madina

If the person with an evil eye is known, he should be asked to wash his body and retain any wasted water that he has used. The water should be poured over the affected person from the hack, and he will – with Allah's Leave – recover

Abû Umâma Ibn Sahi Ibn Hunsyl reported: "As my father Sahi Ibn Hunsyl rook off his ¿bûbah to wash hirredi at Al-Khamaria", "Anie Ihn Rabî" was soking at him. As Sahi was very withe and had a nice sikin complexion: "Anif said to him, "I have never seen the sahi of a wish goli roowed in her genemic." Sahi became ill at cone and his illness became worse. The Prophet a was informed of his liness and was told that Sahi could not even raise his head. The Prophet à asked if they here whose evil was, and they said that it was 'Amri ibn Rabîa". The

Prophet & summoned 'Amir and was furious: For what reason do you kill your brother? Don't you invoke Allah also bless what he has Wash yourself for him, then 'Amir washed his face, hands, arms, knees, legs and parts under the 'tzār' (sheet)' in a vessel and retained the wasted water. The water was poured on Salr's back, and he recovered instantly "

There is a controversy concerning which parts of the body are referred to under the sheet. Some were of the opinion that it referred to whatever part the sheet is meant to cover, some said it referred to the private parts, and others held that it refers to the hip, which is the place around winth the sheet is left However, according to Al-D\u00e4\u00e4did lib Al-Y-Ara\u00f6, the strongest view indicate that the tradition of the private parts of the body are covered by the sheet?

Method of Washing

Ibn Shihāb Az-Zuhrī said: "The method of washing as described by our scholars is as follows: the person with the evil eye should be given a vessel of water and told to wash his body with the same water in the following order, without piscing the vessel on the floor:

To rinse one's mouth, then spit the wasted water back into the wessel

To wash one's face with the water in the vessel

To wash one's right arm with one's left hand and one's left arm with one's right hand

To wash one's right elbow with one's left hand and one's left elbow with one's right hand

To wash one's right foot with one's right hand and one's left foot with

one's right hand

To wash one's right knee with one's left hand and one's left knee

with one's right hand.
To wash the parts under the sheet

Afterwards, the wasted water in vessel should be poured on the affected person's back, in one go.1

The Legitimacy of Washing

- The Prophet is said: "The evil eye is a reality, and if there is anything that would ever race with al-Qadar (destiny), it would have been the evil eye; and if you have been requested to wash your body, then do it "2"
- 'A'isha reported: "The Prophet is used to order the person with the evill eye to do wwwhi/2" and give the wasted water to the affected person to wash with."3

It is from these two traditions that the legitimacy of $wudh\hat{u}'$ or washing is derived.

Case One: A baby who refuses its mother's breastfeeding

While I was on a visit to some of my relatives, I was informed that a baby refused to breastfeed by its mother, for few days, after he had been breastfeeding normally. I told them: "Bring the baby." When they brought the baby, I recited the rugya for it, using chapters 112, 113 and 114 of the Qur'an and some invocations, then told them. Take it to its mother.' After a moment, they returned and informed me that the baby was breastfeeding normally, thanks to Allah.

Case Two: A child who becomes dumb

There was a bright eloquent teenager, who was prominent among his peers at the intermediate level of school. He was their spokesman at meetings or gatherings, and would chat with people at parties. One day, one of his townsmen died, and he went to the funeral with his family There, he praised Allah and delivered a wellexpressed sermon. In the evening of the same day, he suddenly went dumb His father was stunned, and took him to the hospital. where he underwent the necessary examinations with x-rays But, it was to no avail. His father brought him to me. He was in such a terrible state that, had I not controlled myself I almost cried because I knew him as an active Muslim at school. I asked his father what was wrong with him. He told me the story, and the child remained

silent. I knew then that he was affected by an evel eye I recited the rougen on him, significations of 14 of the Cartin, and necited the invocations of roughs against the evil eye on some water. If advised the father to give the veator to his son to drifts and water with for a period of seven days. After seven days, the boy recovered and became as eloquent as he was before. If sught him some invocations to say in the morning and evening, as protective measures against the evil eye.

Case Three: An amazing story

This incident took place in my house. One day, a man and old lady visited me. The man sat with me and told me his mother's story, and his mother sat with my wife. I called the old lady and recited a rugva on her. When they left, I looked around in the house and noticed a Int of white maggots. I was surprised. My wife cleaned the house with a sweener, but shortly afterwards they came back and spread in all the rooms. I said to my wife, "Let us think about it." She asked what the old woman had told me. I replied, "She looked at every part of the house for a long while, without saving anything." I immediately understood it was an evil eye that hit our house, despite the fact that it was very modest. But perhaps, the old lady was living in the countryside and she had never seen urban life. Nevertheless, I recited the rugva of the evil eye on some water and sprinkled it in all the parts of the house A moment later, the white maggots completely disappeared, and the house returned to its original state And All Praise is Due to Allah
